---	---

In order that students admitted can benefit from ITE training, it is important that they are physically and medically fit to pursue the courses offered. Applicants with existing physical/medical conditions may be considered for other courses more suitable than the courses offered, where appropriate.

**Notes:**

- ① Applicants for Business Information Systems, Electrical Engineering, Electronics Engineering, Information Technology, Mechatronics Engineering, Mobile Unified Communications, Network Security Technology, Security System Integration and Wireless Technology courses are required to take and pass the colour vision test. Colour vision test will be conducted for applicants enrolled into these courses. Test for colour vision is available over the Internet and at the ITE campuses conducting these courses. Please take the test before submitting your application if you are not sure whether you are free from colour appreciation deficiency.
- ② Applicants applying for Higher Nitec in Early Childhood Education and Higher Nitec in Beauty & Spa Management have to pass a pre-admission medical examination.
- ③ **Dual Certification Course for *Higher Nitec* in Paramedic & Emergency Care and *Nitec* in Nursing**

This is a 3-year and 3-month dual certificate course for those who possess a passion for saving lives and strong interpersonal, critical thinking and decision making skills. Applicants who are interested to apply for the course must ensure that they do not suffer from colour appreciation deficiency and may check directly with ITE College

East for more information. Due to the special requirements of the healthcare profession and in the delivery of direct patient care, all applicants also have to pass a pre-admission medical examination and be free from physical and mental handicap to ensure suitability. Whilst not comprehensive, the following medical conditions will lead to non-acceptance into the course:

- Colour Appreciation Deficiency
- Epilepsy
- Legal Blindness
- Active Tuberculosis
- Profound Deafness
- Psychiatric Condition
- Uncontrolled Asthma
- Uncontrolled Diabetes
- Uncontrolled Hypertension
- HBsAg Positive / Hepatitis B Carrier
- Mobility Restricted (Hindering Performance)
- Physical Dependence Upon Mobility Equipment
- Human Immunodeficiency Virus Positive (HIV +ve)/  
Acquired Immune Deficiency Syndrome (AIDS)
