

The “**Net Aggregate Range for Previous (2021) JAE**” in the table below shows the **net aggregate scores of the highest to lowest ranked students who were admitted to these courses in the 2021 Joint Admissions Exercise (JAE)**. These aggregate scores are meant as a reference for applicants applying to these courses, and **do not** constitute the admission scores for subsequent admission exercises. The net aggregate scores for the courses are not pre-determined by MOE or ITE before posting. The eventual course aggregate scores for the 2022 JAE may vary from previous years, depending on students’ GCE O-Level examination results and their course choices during the JAE.
