

Higher Nitec in Opticianry

HF3OP

Higher Nitec in Opticianry

3 month IA Duration

HS43008FPE

1. Perform spectacle power measurement
2. Conduct visual acuity test
3. Measure pupillary distance
4. Perform auto refraction
5. Analyse optical prescription (single vision)
6. Measure frame dimensions (single vision)
7. Perform lens verification (single vision)
8. Perform frame adjustment (single vision)
9. Observe refraction of an elderly client (60 years old and above)
10. Observe refraction of a paediatric client (8 years old and below)

HF3OP, HF2OP, HFXOP

Higher Nitec in Opticianry

6 month IA Duration

HS53005FPE|HS53006FPE

1. Perform spectacle power measurement
2. Conduct visual acuity test
3. Measure pupillary distance
4. Perform auto refraction
5. Analyse optical prescription (single vision)

6. Measure frame dimensions (single vision)
7. Perform lens verification (single vision)
8. Analyse optical prescription (progressive lens)
9. Measure frame dimensions (progressive lens)
10. Perform lens verification (progressive lens)
11. Perform frame adjustment (progressive lens)
12. Perform bifocal / progressive dotting
13. Observe refraction of a client with astigmatism $\geq - 2.50\text{DC}$
14. Observe refraction of an elderly client (60 years old and above)
15. Observe refraction of a paediatric client (8 years old and below)
16. Observe refraction of a client with myopia $\geq - 5.00\text{DS}$
