

HIGHER NITEC IN FILMMAKING (CINEMATOGRAPHY)

Electives (Course Specific)

Audio for Video

On completion of the module, students should be able to apply the knowledge and skills of audio production for video, which includes the ability to employ the right type of microphones, carry out microphone placement techniques, record audio signals, identify different audio formats, and perform audio editing and mixing. The students should also be able to apply basic audio filters and effects for video post-production.
