The background features a bright blue sky with light rays emanating from the top center. Below the sky is a landscape composed of various colorful geometric shapes, including green and yellow hills, a red rectangular block, a purple rectangular block, a yellow trapezoidal block, and a blue trapezoidal block. There are also several stylized trees with green foliage and brown trunks scattered across the landscape.

## Features

Attain a *Higher Nitec* qualification in 3 years

N(A) and N(T) students can apply with existing *Nitec* entry requirements

Gain exposure to modules in their sector in Year 1 before specialising later

'O' Level and DPP students with Minimum Entry Requirements join Year 2 directly

2 integrated internships – 3 months in Year 2 and 6 months in Year 3

“The three-year *Higher Nitec* in IT Applications Development programme ignited my passion and interest in the field of IT technology. I was able to apply the tools I have learnt to overcome real work-life challenges effectively during my internship. Being in the accelerated pathway also trains me in my perseverance and time management.”

# CHECK OUT OUR ITE COURSE FINDER

Located at <https://www.ite.edu.sg/courses/course-finder>

The screenshot shows the ITE Course Finder website. At the top, there is a navigation bar with the ITE logo and the text "Institute of Technical Education". To the right of the logo are links for "Who We Are", "Colleges", "Courses", "Admissions", "Life@ITE", "Employers", and "Newsroom". Further right are links for "Student Login", "Staff Login", and "e-Services & Forms". A search icon is also present. Below the navigation bar is a large red banner with the text "Course Finder". Underneath the banner is a breadcrumb trail: "Home > Courses > Course Finder". The main content area is divided into a left sidebar and a main search area. The sidebar contains a "FILTER" section with a "Reset" button and several dropdown menus: "Type of course", "Schools", "Certification", "Location", and "Industry". The main search area features a search bar with the placeholder text "Search for courses" and a search icon. Below the search bar, it displays "1 - 10 of 508 search results" and a "Sort by:" dropdown menu set to "Course". A legend below the search results identifies location markers: HQ (ITE Headquarters), CC (ITE College Central), CE (ITE College East), CW (ITE College West), and O (Others). The first search result is for the "Higher Nitec in Accounting" course. It shows a duration of 2 years, a full-time course type, and is available at CC, CE, and CW locations. A brief description follows: "Understand a business through numbers. In this course, you will learn to prepare final accounts and cost accounts for various entities. You will also learn to use accounting software, apply accounting concepts to different business scenarios, and gain knowledge in data analytics and customer relationship management." A red "Submit" button is located at the bottom left of the sidebar.

## ITE grads find doors to good jobs opening wider

Survey shows median pay more than doubled in 10 years; more grads also furthering studies

Students from the Institute of Technical Education (ITE) may have taken a longer road to success, but a new survey shows that their qualifications also open doors to good jobs and further education pathways.

The survey tracked 3,500 ITE students from the Institute of Technical Education (ITE) who left the ITE in 2007. The top 10 per cent of ITE graduates drew \$4,500 a month and the top 25 per cent, \$3,600 - similar to the average pay of residents here.

Compared with their peers who went on to work after secondary school, ITE grads were better off - they earned \$500 more a month. The survey also found that 44 per cent had gone on to study for a

The ITE, which offers 97 full-time certificate courses and over 30 traineeship courses, takes in about 16,000 students a year. The vast majority - 65 per cent - head there after completing their N-levels, about 15 per cent are O-level school leavers. The remainder are students progressing from Nitec to Higher Nitec courses.

The latest graduate employment survey of students from the National University of Singapore, Nanyang Technological University and Singapore Management University showed that their median starting monthly salaries \$3,100. Fresh ITE

ITE grad Vishesh Ganesanathan completed a degree and is now a user experience manager with FWD Insurance.

and electrical engineering at the ITE, said his ITE training enabled him to go into jobs in the IT field. After working for several years, he went on to start a logistics company with some friends.

He remembered caring and dedicated teachers who trained them well. "The teachers really helped to build our confidence," he said.

ITE graduate Vishesh Ganesanathan, 32, a user experience manager with FWD Insurance, agreed that ITE opened doors to higher education and good jobs for him.

Mr Vishesh, who left ITE in 2004 after completing a course in multimedia technology, went on to Temasek Polytechnic and then to RMIT University in Australia to complete a degree in communication design.

He credited ITE for moulding him into an independent and hands-on learner. "In polytechnic and then in university, I was ahead of the other students because of the industry-relevant and hands-on exposure that ITE gave me," he said. "And ITE opened doors for me to the job

Khalil Gek said: "Clearly, an ITE education builds in our students skills that enable them to access good jobs. It also provides them with a strong inclination to go on to further education at some point in their career."

## From ITE to NUS medicine: Ex-dropout makes the grade

23-year-old, who had quit secondary school, is first ITE grad to be accepted by med school

**Headline by**  
Sandra Davie

It started out with a bang. At 17, Chuan Sheng had just completed his N-levels and was accepted for a place in the first year of the medicine course at the National University of Singapore (NUS). But he had a problem: he had dropped out of secondary school.

Chuan Sheng, 23, is the first ITE graduate to be accepted by the NUS medical school. He had spent his first 17 years at the Institute of Technical Education (ITE) before dropping out of secondary school in Year 11.

Chuan Sheng's journey to NUS medicine is a testament to his determination and hard work. After leaving ITE, he spent time working and saving money to fund his education at NUS. He also took advantage of the various support programs offered by NUS to help him catch up on his studies.

Chuan Sheng's success is a source of pride for ITE and its graduates. It shows that with the right attitude and hard work, anyone can achieve their dreams, regardless of their starting point.

**A different path to success**

ITE has helped Chuan Sheng find a different path to success. He is now a first-year student at NUS, where he will continue to study medicine.

**How to apply**
