

# Congratulations

## ITE TEACHER AWARD 2020

As the staff overseeing Student Well-Being, Wong Boon Cheng coordinates various initiatives which provide assistance to students. These include the Meal Token programme to help needy students; the Student Mentorship Programme; and Motivational Talks, amongst others.

Boon Cheng was involved in starting the Student Mentorship Programme that paired academically better and helpful students, with their weaker classmates. He facilitated mentor training sessions and team-bonding sessions, as well as coordinated dedicated mentor-mentee study time.

A firm advocate of values education, Boon Cheng organises annual fund-raising events, with proceeds being channelled towards community service, like visits to disabled/elderly homes. He hopes that, through these activities, students learn the value of being compassionate and grateful to society.

Boon Cheng believes in relationships and trust. Neo Yizhe, a Lee Kuan Yew Model Student awardee and former student of Boon Cheng's, shared, "Mr Wong is someone who has trust in us, never giving up on us, knowing that our potential will be amplified one day. The trust he has in us and the guidance he gave has moulded me into who I am today."
