SKILLSFUTURE SERIES FOR TECH ENABLED SERVICES

CoC in Robotic Process Automation (RPA) for Beginners

Course Objective

With the rapid increase in companies adopting digitalization to improve productivity and business operations, RPA is gaining rapid market attraction as it handles repetitive and rule-based tasks without human intervention. The use of RPA enables organisations to automate repetitive functions and focus more on core business tasks to gain long-term profitable growth.

This course will equip participants with the knowledge to automate its work processes in order to achieve increase in productivity.

Course Content
• Introduction to RPA
• UiPath Interface
• Programming Concept
• Excel Automation
• Web Automation
• Email Automation
