

New Wave, New Future

Based on the theme "New Wave, New Future", the ITE Work Plan Seminar 2019 was held on 1 February 2019 to discuss key challenges and opportunities for ITE in response to the latest industry developments.

It brought together 450 participants, including Board members, staff and partners in a series of lively discussions on the future of jobs and skills.

These included industry guest speakers - Mr Ted Tan, Deputy CEO (Industry Clusters), Enterprise Singapore, Mr Kung Teong Wah, General Manager, Copthorne King's Hotel Singapore, and Mr Eddie Lee, Group CEO, SeedIn Singapore.

ACE-ing with Technology

For developing an innovative student attendance management system, a team of staff from ITE College West clinched two awards at an international competition for performance excellence.

Competing against teams from 29 other countries, the team won the "3-Stars" top award and the "Best for Leveraging Technology" award at the Asia Pacific Quality Organization's International ACE Team Competition, held at Abu Dhabi in December 2018.

Their system uses digital tools to update and analyse students' attendance. This enables timely intervention to improve attendance outcomes and consequentially contributed to improved student success.

Well done!

ITE's First Drone Conference Takes Off

On 23 January 2019, ITE held its first Drone Technology for Urban Solutions Conference at ITE Headquarters.

With a focus on demonstrating the widespread application of drones, the Conference featured talks from industry experts and a showcase of innovative drone projects.

Some 350 guests from ITE, polytechnics, universities, and the industry attended the Conference.

Future careers and opportunities in drone technology are limitless!

Boosting Financial Literacy through Digital Tools

From March 2019, all Year 1 ITE students will learn to improve their financial management skills under an enhanced financial literacy curriculum jointly developed by ITE and DBS Bank.

The curriculum features the use of digital tools, which enable students to track their spending and manage budgets through personalised data insights.

Senior Minister of State for Trade and Industry and Education, Mr Chee Hong Tat, officiated at its launch on 9 January 2019.

On 28 February 2019, the Technical Engineer Diploma (TED) in Machine Technology Project Fair was held to showcase projects by the 10th batch of graduating TED students.

Developed in collaboration with companies and overseas partners, the 13 projects were designed to solve real-world problems through innovation and technology.

These included two projects that were jointly undertaken with students from Germany's Gottlieb-Daimler Schule 1 and the Shanghai Technician School.

We are proud of their smart innovations!

With the rise of the digital economy, digital capabilities have become more critical for success.

To equip ITE students with key digital skills, ITE has forged two new partnerships with organisations specialising in Artificial Intelligence (AI).

Under the partnership with AI Singapore signed on 9 January 2019, all ITE students will be taught basic AI skills.

Similarly, as part of an agreement signed with Automation Anywhere on 25 February 2019, students will learn robotic process automation (RPA) skills for automating business processes.

A Dazzling Display at Chingay 2019

Did you know that a group of 15 students from ITE were among the 6,500 performers at this year's Chingay Parade?

They were part of a contingent featuring representatives from the five Community Development Councils (CDCs), which also included senior citizens.

Decked in colourful costumes, they put up a vibrant dance performance that symbolised the celebration of a strong community spirit.
