

ITE WORK-STUDY
DIPLOMA

WORK, LEARN AND EARN AT THE SAME TIME!

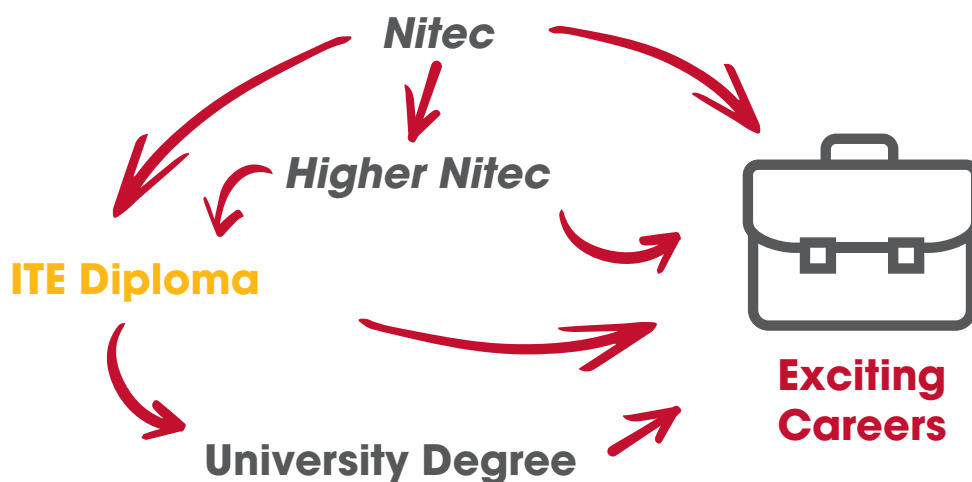

The Work-Study Diploma (WSDip) is a unique 2.5- to 3-year apprenticeship-based programme. It comprises 70% on-the-job training at ITE's partner companies, and 30% off-the-job training at ITE.

Why Choose WSDip?

Frequently Asked Questions

1. Can WSDip applicants defer from National Service (NS)?

Applicants who have not enrolled in NS can apply for NS deferment to study in WSDip if they meet the age requirement, same as other ITE Full-time Diploma courses.

This will take effect from Academic Year 2021 WSDip intake.

2. Some private Diplomas can be attained after one year. Why does the WSDip course take such a long time?

The WSDip Programme encompasses 2.5 to 3 years of in-depth training for trainees. This additional working experience enables trainees to become competent in carrying out their job roles and gives employers confidence that trainees have the skills to work.

3. Can WSDip applicants choose the company they want to work in?

Applicants can choose from a list of participating companies during the WSDip intake exercise. However, they must attend interviews conducted by the company and be employed by the company, before starting WSDip Programme.

4. What do employers look for at the selection interview for WSDip applicants?

Like most recruitment processes, it is important for WSDip applicants to show good work attitude and passion for the job. Being interested in the company and displaying willingness to add value will help the applicant as well.

As this is a Diploma-level programme, employers also expect applicants to be strong in knowledge and skills learnt from previous *Nitec* / *Higher Nitec* courses.

5. Can *Nitec* / *Higher Nitec* students of non-feeder courses qualify for WSDip courses that they really like?

It is possible for *Nitec* / *Higher Nitec* students of non-feeder courses to be accepted in WSDip courses that they really like. However, approval is on a case-by-case basis and the employer has to say yes as well.

If the applicant is accepted, he / she will not get the sign-on incentive.

6. In the scenario where the intake period seems quite far off from the Operationally Ready Date (ORD), what can prospective WSDip students do in the meantime?

If waiting time for the next intake period is long, those who are interested can try to get jobs in areas related to the course, in order to better understand job expectations.

7. Is there a bond period after the WSDip? If yes, how long is it?

Most companies do not impose a bond period after the WSDip. For those which do, bond periods typically range from 1.5 to 2 years. However, this information must be shared with applicants before the start of the course.

8. How will WSDip trainees be assessed in the course?

The trainees will be graded by the company and ITE. At ITE, we may require the trainees to go through an in-course assessment and a written test after a module.

9. Can WSDip graduates apply to progress to local universities?

WSDip graduates can apply to related full-time or part-time degree programmes in the National University of Singapore, Nanyang Technological University, Singapore Institute of Technology or Singapore University of Social Sciences, subject to the admission requirements of the university.

10. Will WSDip graduates get more pay and a higher job rank?

As Diploma holders, WSDip graduates can generally get more pay and higher job ranks that poly Diploma graduates enjoy.

However, it is only fair that companies do so after seeking good work performance as well. With a Diploma, graduates are likely to get career advancement and increased responsibilities in time to come.

Work-Study Diploma in

Aircraft Cabin Engineering

Duration:

2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, and have:
 - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
 - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

Nitec in:

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Automotive Technology
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Digital & Precision Engineering
- Electrical Technology (Power & Control)
- Electrical Technology (Lighting & Sound)
- Mechanical Technology
- Mechatronics & Robotics
- Rapid Transit Technology

Higher Nitec in:

- Automotive Engineering
- Electrical Engineering
- Engineering With Business

- Facility Management
- Integrated Mechanical & Electrical Design
- Marine & Offshore Technology
- Marine Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Rapid Transit Engineering
- Robotics & Smart Systems

Note:

- Pre-National Service (NS) applicants are eligible to apply.
- Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
- NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

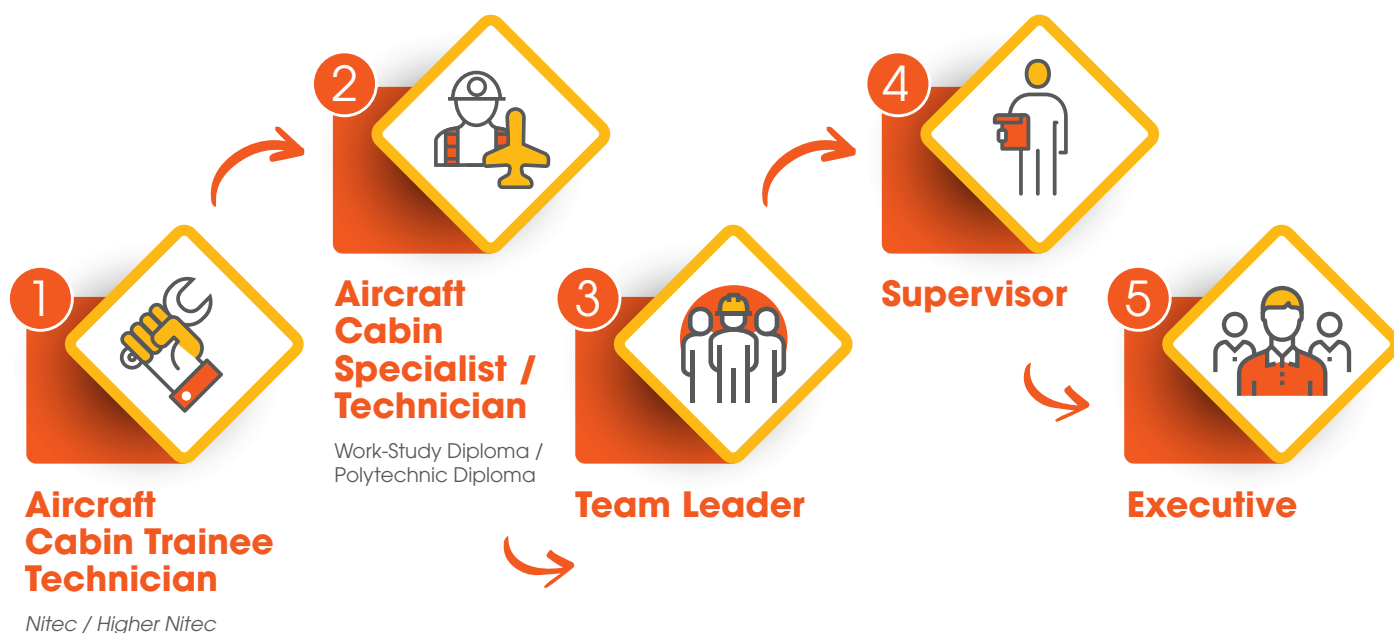

About the Course

This Diploma course prepares you for a professional career in the Aviation sector. You will be equipped with skills and knowledge in aircraft cabin maintenance and refurbishment. You will be engaging in a wave of cabin makeovers to provide for future needs and demands.

On completion of this Diploma Programme, you can take up jobs as Aircraft Cabin Specialists.

Work-Study Diploma in

Aircraft Maintenance Engineering

Duration:

2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, are free from colour appreciation deficiency, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

***Nitec* in:**

- Aerospace Avionics
- Aerospace Technology
- Automotive Technology
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Electronics, Computer Networking & Communications
- Electronics & Internet of Things
- Mechanical Technology
- Mechatronics & Robotics
- Rapid Transit Technology

***Higher Nitec* in:**

- Automotive Engineering
- Electrical Engineering
- Electronics Engineering
- Engineering With Business
- Facility Management
- Integrated Mechanical & Electrical Design
- Marine & Offshore Technology
- Marine Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Rapid Transit Engineering
- Robotics & Smart Systems

Note:

- Pre-National Service (NS) applicants are eligible to apply.
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

About the Course

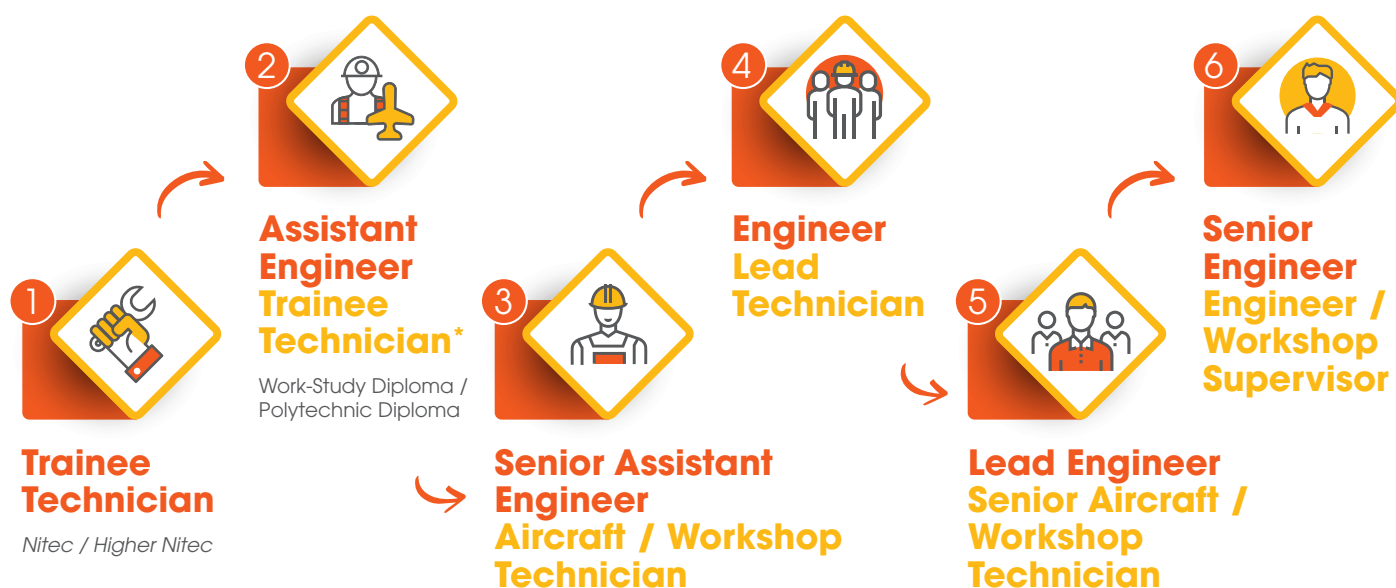

This Diploma prepares you for a professional career in the Aviation sector. This course equips trainees with skills, knowledge and professional attributes to inspect, troubleshoot, maintain and repair aircraft structure, systems (mechanical, electrical and avionics) and associated components using appropriate methods and techniques in accordance with approved procedures and regulations to ensure airworthiness of aircraft.

On completion of this Diploma Programme, you can become an Assistant Engineer.

Work-Study Diploma in **Aircraft Engine Maintenance**

Duration:
2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

***Nitec* in:**

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Mechanical Technology
- Mechatronics & Robotics

***Higher Nitec* in:**

- Electrical Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Robotics & Smart Systems

Note:

- Pre-National Service (NS) applicants are eligible to apply.
 - Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
 - NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

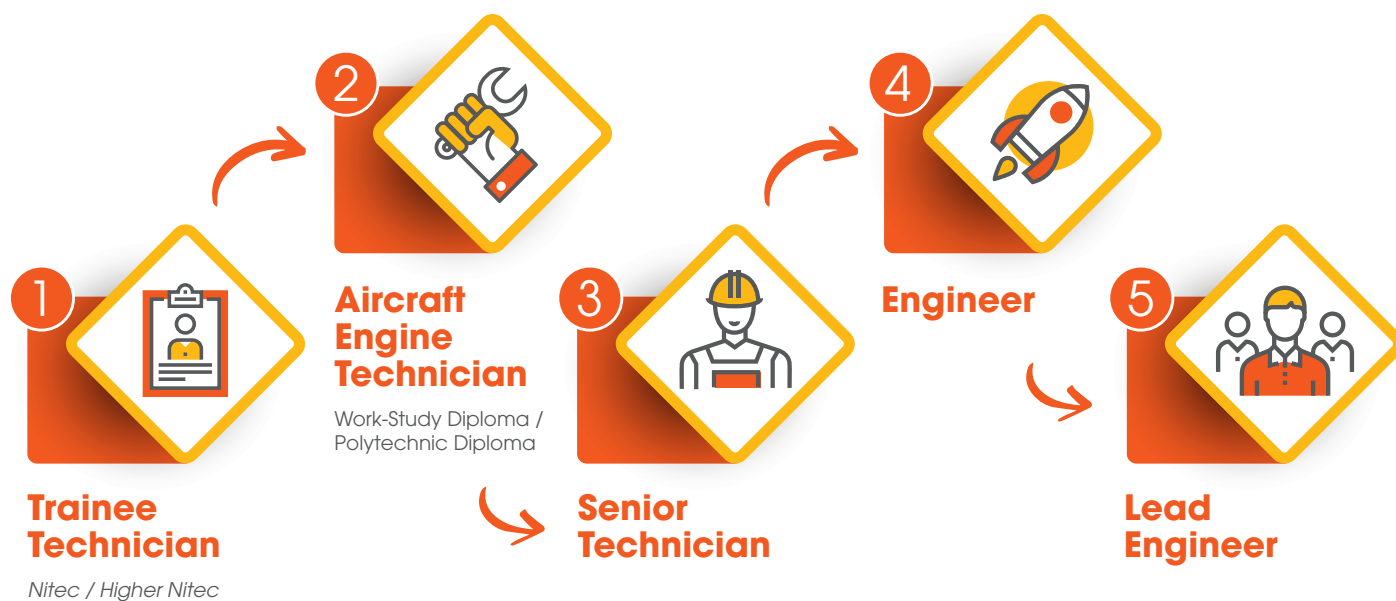

About the Course

This Diploma prepares you for a professional career in the Aerospace sector. You will gain the skills and knowledge to perform aircraft power plant maintenance, visual inspection and non-destructive testing of aircraft parts and components.

On completion of this Diploma Programme, you can become an Aircraft Engine Technician.

Work-Study Diploma in Chemical Process Technology

Duration:
2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, and have:
 - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
 - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

***Nitec* in:**

- Chemical Process Technology
- Electrical Technology
- Mechanical Technology

***Higher Nitec* in:**

- Electrical Engineering
- Mechanical Engineering

Note:

- Pre-National Service (NS) applicants are eligible to apply.
 - Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
 - NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

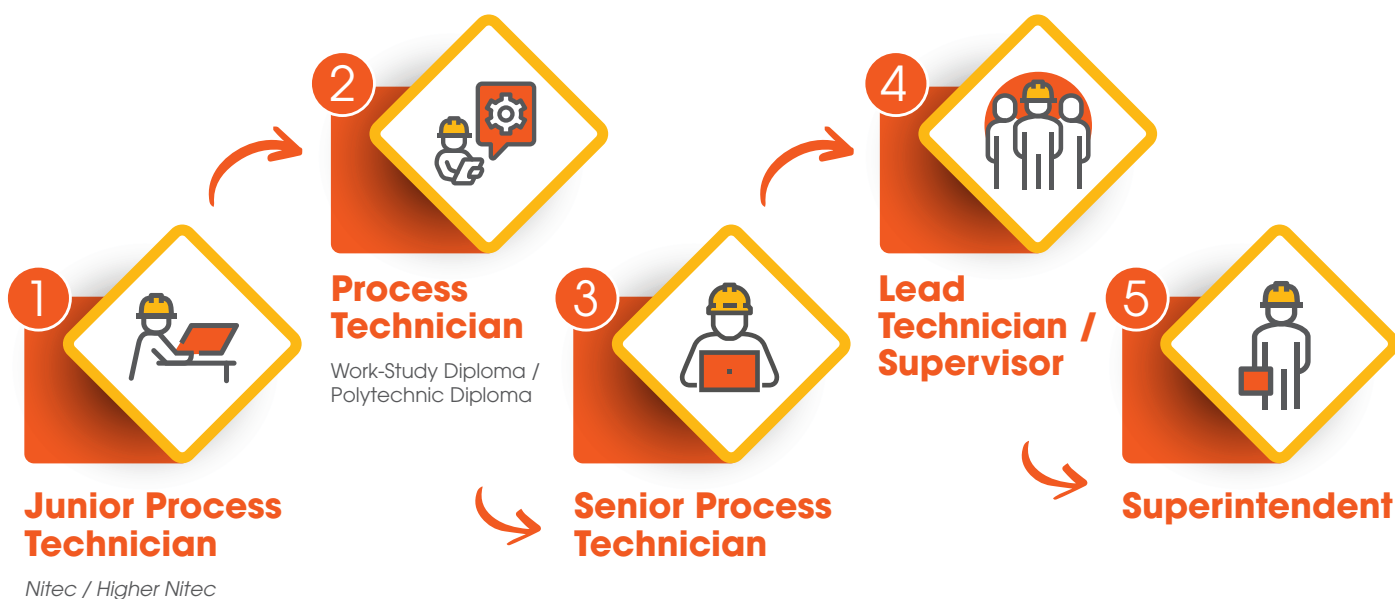

About the Course

This Diploma course prepares you for a professional career in the Energy & Chemicals sector. You will gain the skills and knowledge to manage and maintain the manufacturing or process operations in the chemical, oil and gas industry.

On completion of this Diploma Programme, you can become a Process Technician.

Career Progression Pathway

“ I was attracted by the WSDip’s mode of training. The combination of theory and practice really helps me understand and absorb better. To top it all, I get an income and a Diploma. It’s like a ‘short-cut’ both to work and to a higher qualification. ”

Work-Study Diploma in Port Automation Technology

Duration:
2.5
years

Who Can Apply?

Open to in-service employees of PSA Corporation Limited who are holding the positions of Technical Specialist or Senior Technical Specialist, have a minimum of one year's work experience, and are free from colour appreciation deficiency.

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

Nitec in:

- Automotive Technology
- Electrical Technology
- Electronics
- Mechanical Technology
- Mechatronics
- Port Equipment Technology
- Technology – Port Equipment Technology

Higher Nitec in:

- Automotive Engineering
- Electrical Engineering
- Electronics Engineering
- Mechanical Engineering
- Mechatronics Engineering

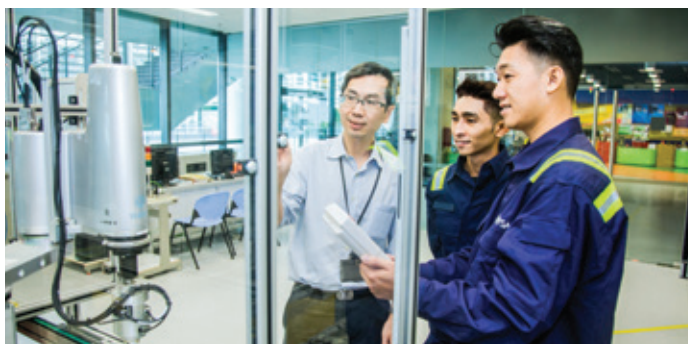

Note:

- Pre-National Service (NS) applicants are eligible to apply.
- Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
- NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

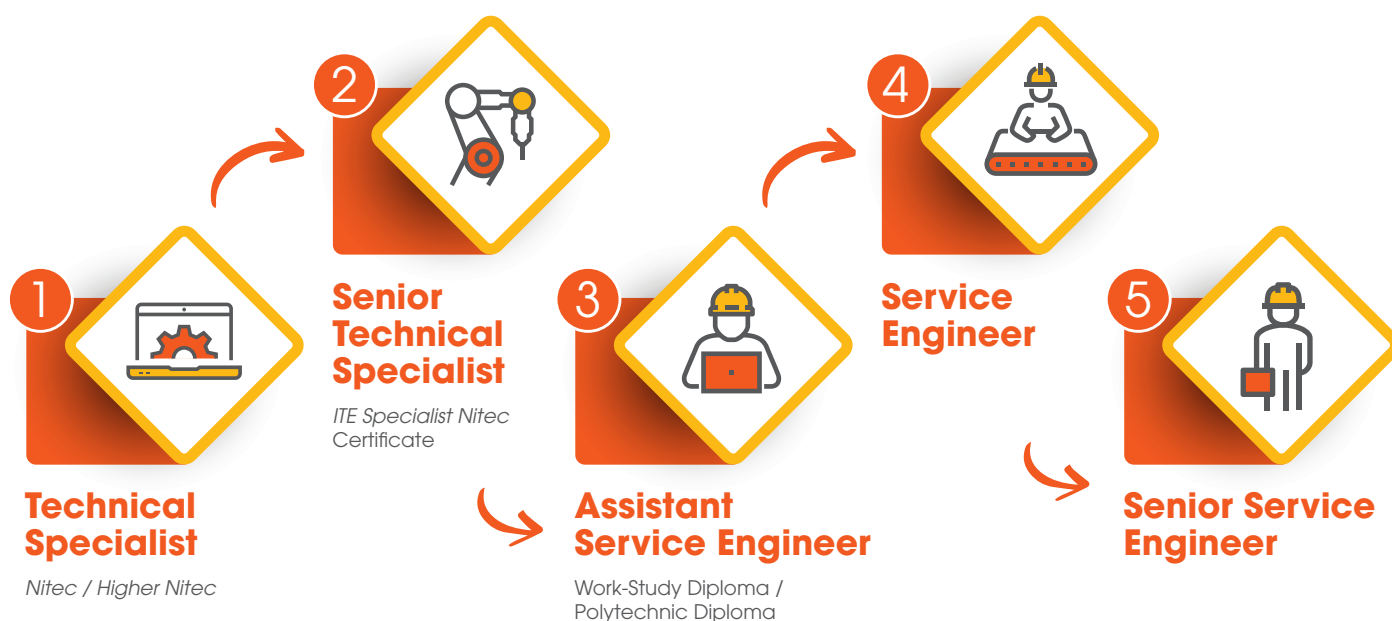

About the Course

This Diploma course prepares you for a professional career in the Sea Transport sector. You will gain the skills and knowledge to perform and supervise maintenance and repair of various port container handling automated systems and equipment, such as network systems, and automated cranes and vehicles, in accordance with planned schedule, quality standards, Standard Operating Procedures and Workplace Safety & Health guidelines.

On completion of this Diploma Programme, you can become an Assistant Service Engineer.

Career Progression Pathway

“ I am grateful for the opportunity to undertake the Work-Study Diploma in Port Automation Technology. The WSDip enables me to acquire a professional qualification while working on the job. The new skills and knowledge that I learn will prepare me for PSA’s future workplace and contribute to its transformation into an automated, intelligent port! ”

Kenny Goh

Assistant Service Engineer
PSA Corporation Limited
(WSDip Trainee)

- NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

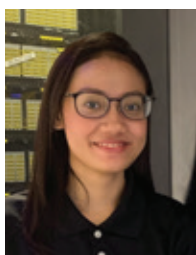

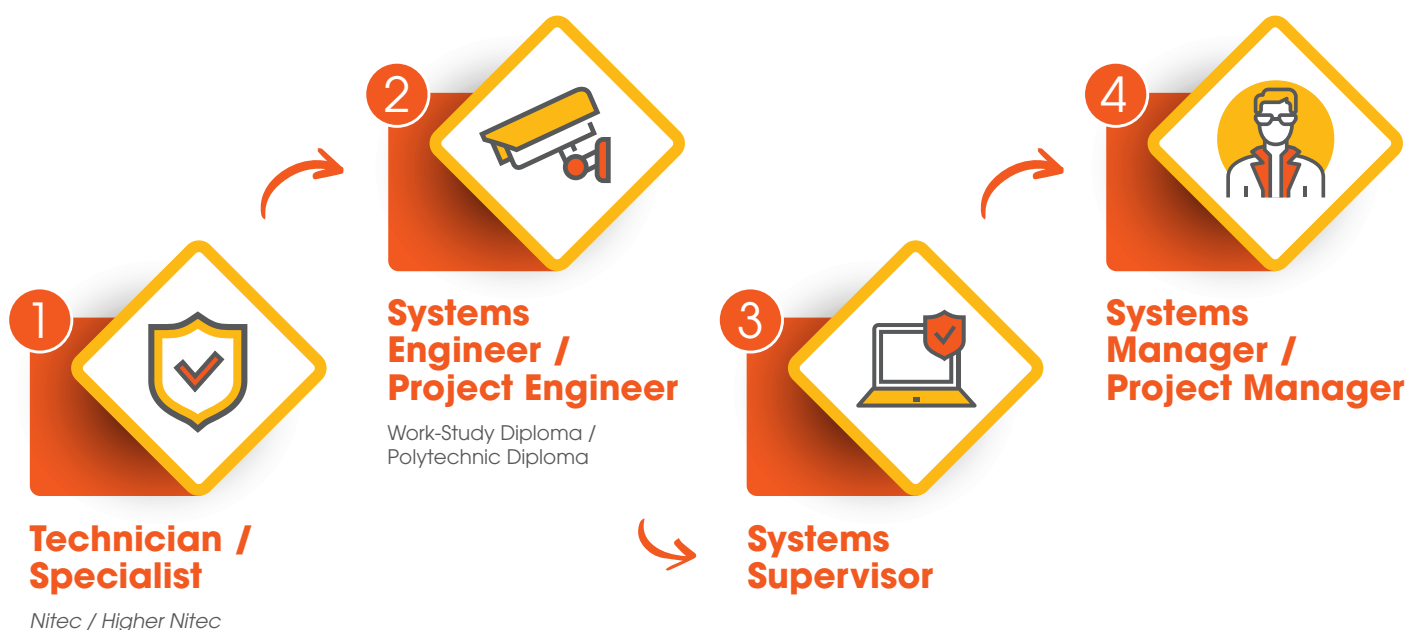

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

About the Course

This Diploma course prepares you for a promising career in the Security Technology industry. You will gain the skills and knowledge to design, install, integrate and manage the implementation of physical security projects, and maintenance of physical security systems to safeguard personnel, property and information. On completion of this Diploma Programme, you can take up jobs as Systems Engineers or Project Engineers.

Career Progression Pathway

“ I chose the WSDip over a full-time course in Poly as I can get the WSDip Diploma in a shorter time, and I get to start work immediately. In fact, I’ve also encouraged my younger brother to consider the WSDip route after he completes National Service. ”

Nurul Fitri Bte Mustafa
Security & Compliance Officer
Equinix Singapore Pte Ltd
(WSDip Trainee)

Work-Study Diploma in Vertical Transportation

Duration:
2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, and have:
 - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
 - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

***Nitec* in:**

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Automotive Technology (Heavy Vehicles)
- Automotive Technology (Light Vehicles)
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Facility Technology (Air-Conditioning & Refrigeration)
- Facility Technology (Landscaping Services)
- Facility Technology (Mechanical & Electrical Services)
- Facility Technology (Vertical Transportation)
- Mechanical Technology
- Mechatronics
- Rapid Transit Technology

***Higher Nitec* in:**

- Civil & Structural Engineering Design
- Electrical Engineering
- Engineering with Business
- Facility Management
- Facility Systems Design
- Landscape Management & Design
- Marine Engineering
- Marine & Offshore Technology
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Process Plant Design
- Rapid Transit Engineering

Note:

- Pre-National Service (NS) applicants are eligible to apply.
- Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
- NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

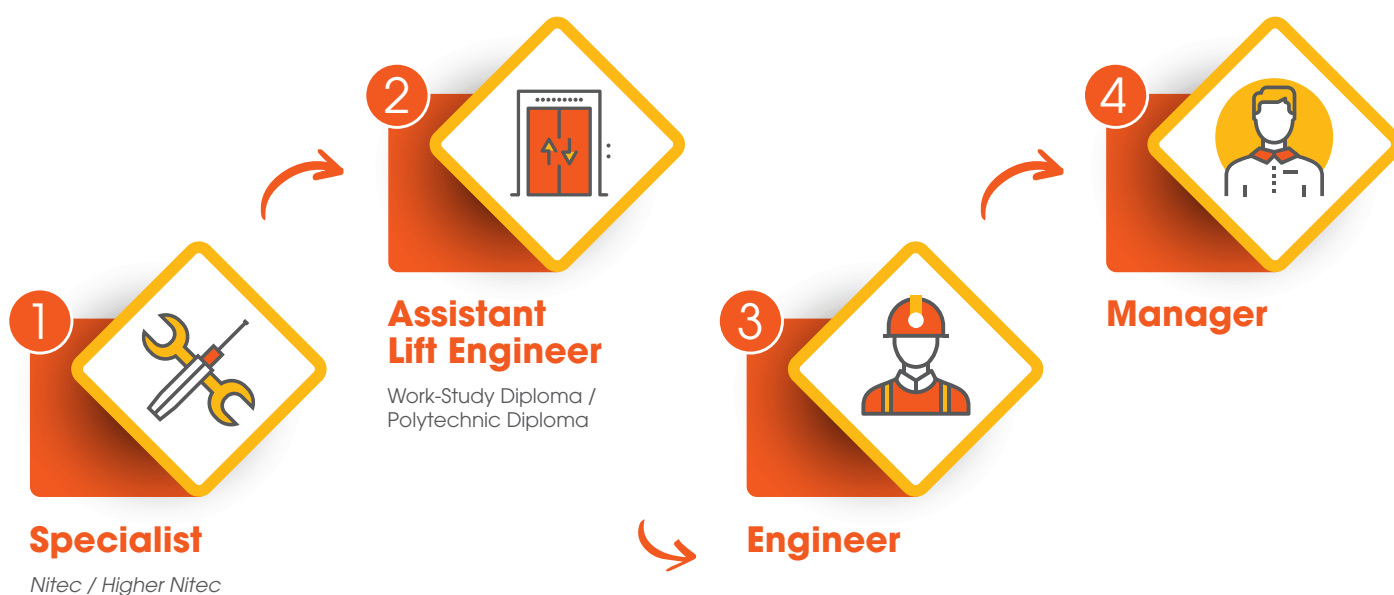

About the Course

This Diploma course prepares you for a professional career in the Built Environment sector. You will gain the skills and knowledge to manage and supervise new lift installation or upgrading project, as well as perform high-level lift inspection, maintenance, servicing and fault diagnostics, in compliance with all relevant standards, regulations and codes of practice.

On completion of this Diploma Programme, you can become an Assistant Lift Engineer.

Career Progression Pathway

“ I chose this Diploma because the career options for this industry are expanding, and the skills I learn at ITE are relevant to the industry. ”

Work-Study Diploma in **Cyber Security & Forensics**

Duration:
2.5
years

Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens or Permanent Residents, and have:
 - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
 - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

***Nitec* in:**

- Infocomm Technology

***Higher Nitec* in:**

- Business Information Systems
- Cyber & Network Security
- IT Systems & Networks

Note:

- Pre-National Service (NS) applicants are eligible to apply.
 - Pre-NS applicants from relevant feeder courses, who successfully deferred their National Service obligation to participate in Work-Study Diploma, are eligible for the sign-on incentive.
 - NS-liable males who wish to pursue Work-Study Diploma courses in 2021 have to check their eligibility for NS Deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

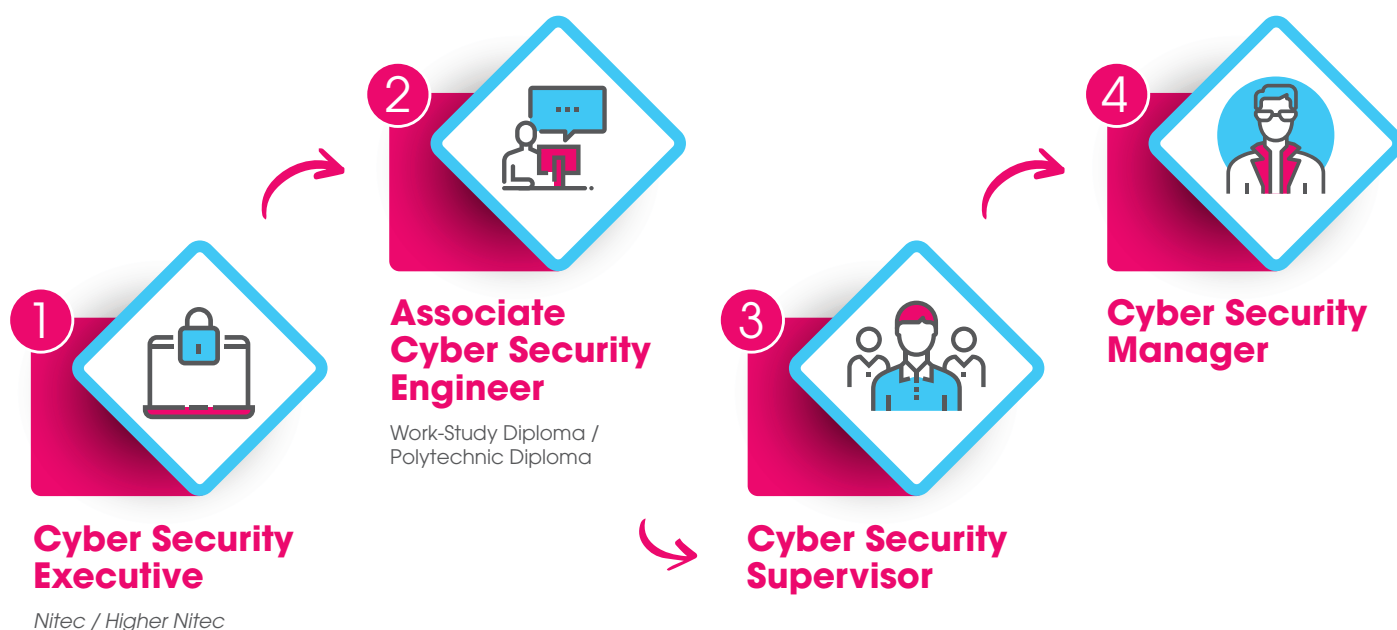

About the Course

This Diploma course prepares you for a professional career in the Cyber Security sector. You will gain the skills and knowledge to manage server and network security infrastructure, perform security assessment and testing, threat detection, incident response, as well as digital forensics operation in accordance with the compliance policy and procedure so as to build resilient defence against cyberattacks for business.

On completion of this Diploma Programme, you can become an Associate Cyber Security Engineer.

APPLICATION PAGE

Apply during the application period. Applicants may list up to three choices.

Attend pre-course interview at ITE HQ

Applicants will be considered for interviews based on their preferred course choices ranked from first to last choice, i.e. applicants who do not meet the admission criteria for their first choice will be considered for their second choice and so on.

Shortlisted applicants to attend interviews conducted by partner companies

Application Timeline

Start your Work-Study Diploma in April 2021

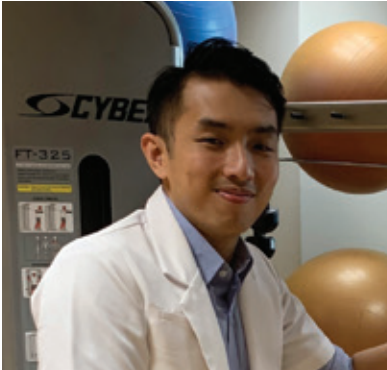

Check application results and decide whether to accept the offer

Successful applicants are required to attend the mass briefing conducted by ITE in March 2021. WSDip Agreements and Agreement of Grant for eligible trainees should be returned to ITE within one week after mass briefing.

Hear from the Companies' Supervisors!

“ WSDip is an excellent way to **groom talents**. They will be workforce ready when they complete the programme. We get **committed and talented workers** and they get **career advancement**. It's a win-win! ”

Keith Chua

Senior Physiotherapist
Tan Tock Seng Hospital
(WSDip Supervisor)

“ ITE students are **open-minded, keen to learn and show initiative** at work. ”

Muhammad Fadhly Farriek Tawfik

Assistant Manager
Markono Logistics Pte Ltd
(WSDip Supervisor)

“ The WSDip allows companies to **build our future talent pool**. As a global company with a local presence, participating in the WSDip Programme also helps elevate my company's profile in Singapore. ”

Goh Wei Xin

HR Manager
ENGIE Services Singapore
(WSDip Supervisor)
