The Work-Study Diploma (WSDip) is a unique 2.5-year apprenticeship based programme designed to create additional pathways of success for ITE graduates. Through learning by doing, WSDips prepare you for higher level jobs requiring deeper skills. Learning comprises 70% - 80% on-the-job training at ITE's partner companies, and 20% - 30% off-the-job training at ITE.

### Why Choose WSDip?

### ITE Progression Pathway

Your Academic and Career Progression after *Nitec* or *Higher Nitec*...

# Frequently Asked Questions

## 1. Can WSDip applicants defer from National Service (NS)?

Applicants who have not enrolled in NS can apply for NS deferment to study in WSDip if they meet the age requirement, same as for other ITE Full-time Diploma courses.

## 2. Some private Diplomas can be attained after one year. Why does the WSDip course take such a long time?

The WSDip Programme encompasses 2.5 years of in-depth training for trainees. This additional working experience enables trainees to become competent in carrying out their job roles and gives employers confidence that trainees have the skills to work.

## 3. Can WSDip applicants choose the company they want to work in?

Applicants can choose from a list of participating companies during the WSDip intake exercise. However, they must attend interviews conducted by the company and be employed by the company, before starting WSDip Programme.

## 4. What do employers look for at the selection interview for WSDip applicants?

Like most recruitment processes, it is important for WSDip applicants to show good work attitude and passion for the job. Being interested in the company and displaying willingness to add value will help the applicants as well.

As this is a Diploma-level programme, employers also expect applicants to be strong in knowledge and skills learnt from previous *Nitec / Higher Nitec* courses.

## 5. Can Nitec / Higher Nitec students of non-feeder courses qualify for WSDip courses that they really like?

It is possible for *Nitec / Higher Nitec* students of non-feeder courses to be accepted in WSDip courses that they really like. However, approval is on a case-by-case basis and the employer has to say yes as well.

If the applicant is accepted, he / she will not get the sign-on incentive.

## 6. In the scenario where the intake period seems quite far off from the Operationally Ready Date (ORD), what can prospective WSDip students do in the meantime?

If waiting time for the next intake period is long, those who are interested can try to get jobs in areas related to the course, in order to better understand job expectations.

## 7. Is there a bond period after the WSDip? If yes, how long is it?

Most companies do not impose a bond period after the WSDip. For those which do, bond periods typically range from 1.5 to 2 years. However, this information must be shared with applicants before the start of the course.

## 8. How will WSDip trainees be assessed in the course?

The trainees will be graded by the company and ITE. At ITE, we may require the trainees to go through an in-course assessment and a written test after each module.

## 9. Can WSDip graduates apply to progress to local universities?

WSDip graduates can apply to related full-time or part-time degree programmes in the National University of Singapore, Nanyang Technological University, Singapore Institute of Technology or Singapore University of Social Sciences, subject to the admission requirements of the university.

## 10. Will WSDip graduates get more pay and a higher job rank?

As Diploma holders, WSDip graduates can generally get more pay and higher job ranks that poly Diploma graduates enjoy.

However, it is only fair that companies do so after seeking good work performance as well. With a Diploma, graduates are likely to get career advancement and increased responsibilities in time to come.

NEW

Work-Study Diploma in

# Agriculture & Aquaculture Technology

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

Relevant *Nitec* / *Higher Nitec* should be from

- School of Engineering
- School of Electronics & Info-Comm Technology
- School of Applied & Health Sciences (Applied Sciences Cluster)
- School of Business & Services (Floristry course only)

## About the Course

The Diploma equips you with the skills and knowledge in automating and managing urban agriculture and aquaculture systems with the deployment of sensors and control systems, robotics, Internet-of-Things (IoT) and data analytics to achieve highly productive, innovative and sustainable agri-food industry

On completion of this Diploma Programme, you can be employed as a Technologist.

## Career Progression Pathway

Work-Study Diploma in

# Facilities Management

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

Relevant *Nitec* / *Higher Nitec* should be from

- School of Engineering
- School of Electronics & Info-Comm Technology
- School of Applied & Health Sciences (Applied Sciences Cluster)

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

The Diploma prepares you with the skills and knowledge in maintaining and repairing key building services systems and their associated sub-systems using appropriate methods and procedures to ensure safe and efficient management of facilities.

On completion of this Diploma Programme, you can be employed as a Technical Executive, Facilities Executive, Property Executive or Building Executive.

## Career Progression Pathway

# Work-Study Diploma in Aircraft Cabin Engineering

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Automotive Technology
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Digital & Precision Engineering
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Mechanical Technology
- Mechatronics & Robotics
- Rapid Transit Technology

### **Higher Nitec in:**

- Automotive Engineering
- Electrical Engineering
- Engineering with Business
- Facility Management
- Integrated Mechanical & Electrical Design
- Marine & Offshore Technology
- Marine Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Rapid Transit Engineering
- Robotics & Smart Systems

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

This Diploma course prepares you for a professional career in the Aviation sector. You will be equipped with skills and knowledge in aircraft cabin maintenance and refurbishment. You will be engaging in a wave of cabin makeovers to provide for future needs and demands.

On completion of this Diploma Programme, you can become an Aircraft Cabin Specialist.

## Career Progression Pathway

# Work-Study Diploma in Aircraft Engine Maintenance

## About the Course

This Diploma prepares you for a professional career in the Aerospace sector. You will gain the skills and knowledge to perform aircraft power plant maintenance, visual inspection and non-destructive testing of aircraft parts and components.

On completion of this Diploma Programme, you can become an Aircraft Engine Technician.

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Mechanical Technology
- Mechatronics & Robotics

### **Higher Nitec in:**

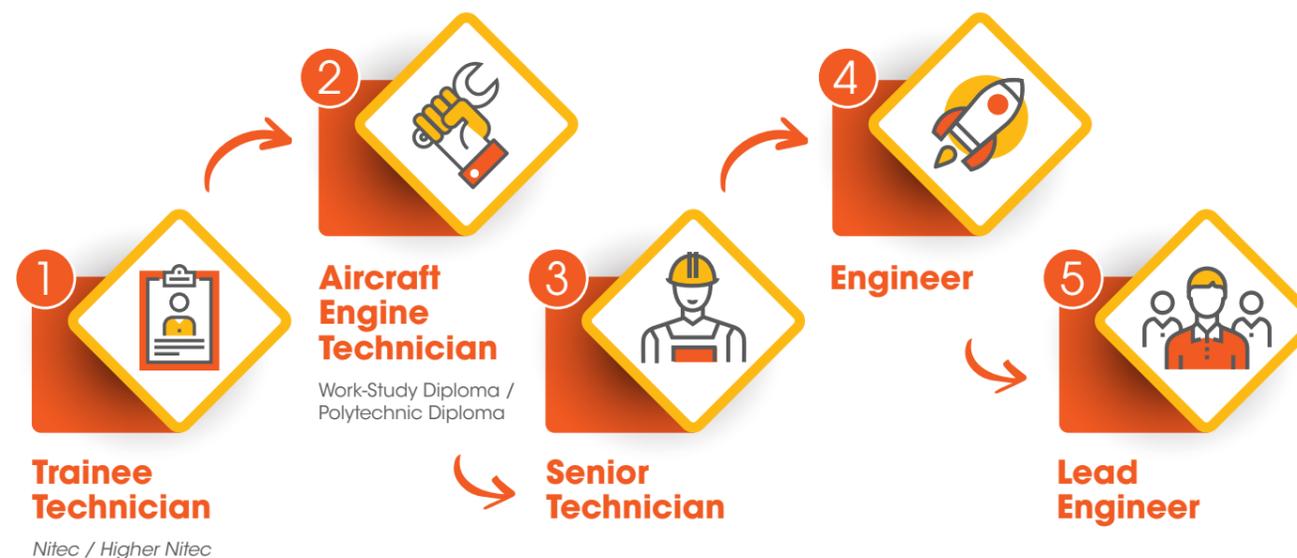

- Electrical Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Robotics & Smart Systems

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Aircraft Maintenance Engineering

- Engineering With Business
- Facility Management
- Integrated Mechanical & Electrical Design
- Marine & Offshore Technology
- Marine Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Rapid Transit Engineering
- Robotics & Smart Systems

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

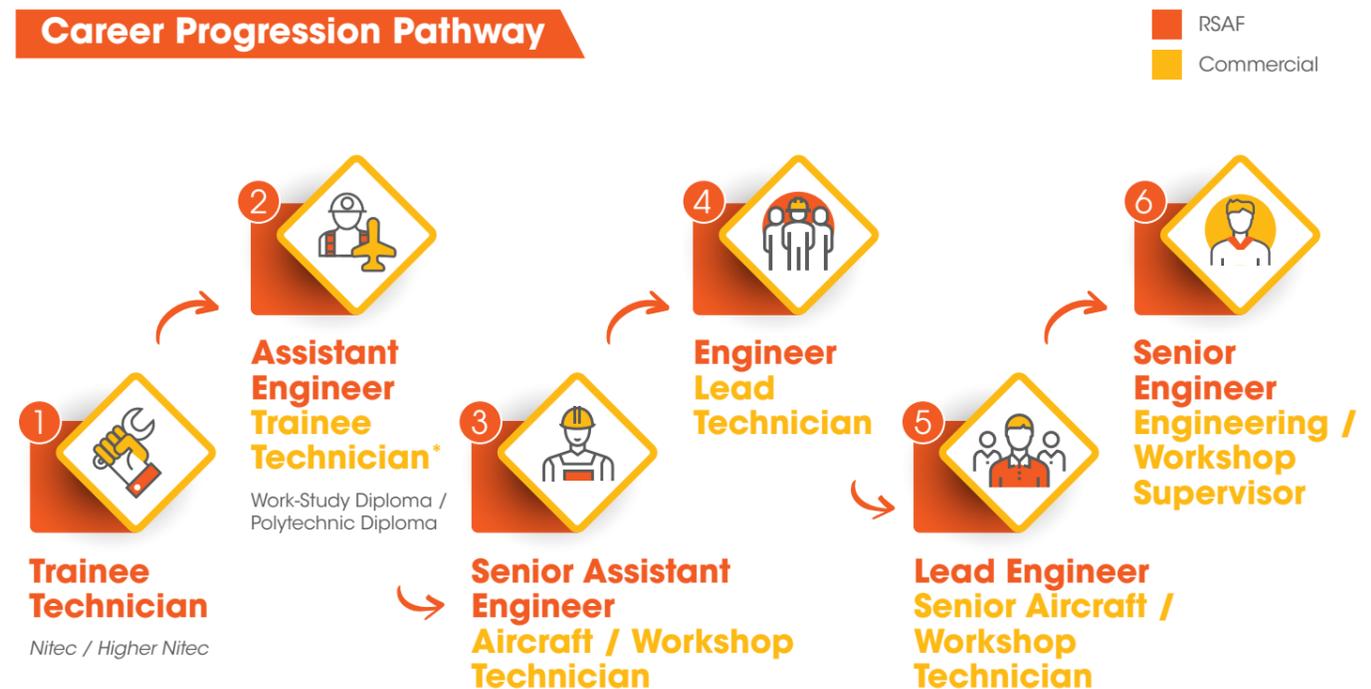

## About the Course

This Diploma prepares you for a professional career in the Aviation sector. This course equips trainees with skills, knowledge and professional attributes to inspect, troubleshoot, maintain and repair aircraft structure, systems (mechanical, electrical and avionics) and associated components using approved methods and techniques to ensure airworthiness of aircraft.

On completion of this Diploma Programme, you can become an Assistant Engineer.

## Career Progression Pathway

\*It is an industry norm that fresh Diploma graduates will be hired as Trainee Technicians in the Aerospace sector.

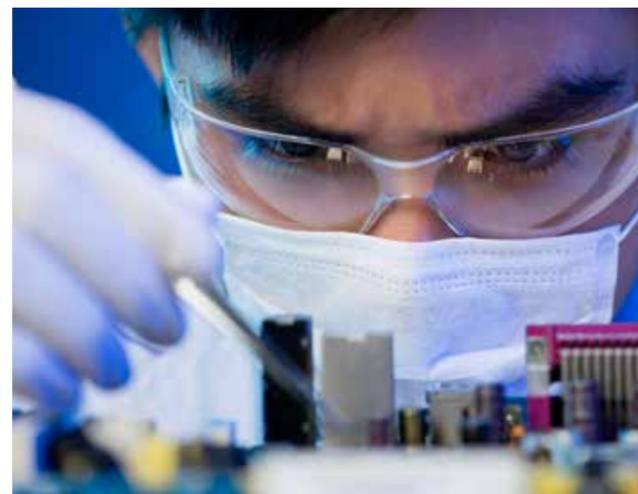

# Work-Study Diploma in Applied Electronics & AI

## About the Course

This Diploma course aims to equip you with applied and emerging digital skills to support Electronics Manufacturing and Engineering Services. It includes Industrial IoT (IIoT), Artificial Intelligence (AI), Automation, Data Analytics and Visualisation for a digitalised work environment.

On completion of this Diploma Programme, you can take up jobs such as Assistant Integration Engineer and Assistant Electronics Engineer.

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

Relevant *Nitec* / *Higher Nitec* should be from

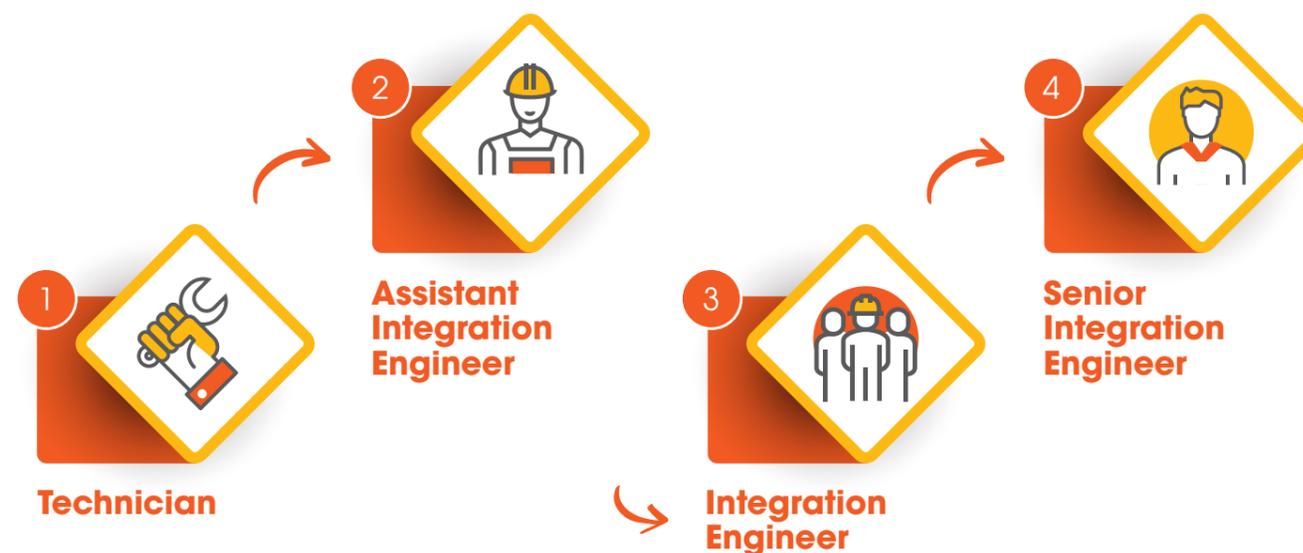

- School of Electronics & Info-Comm Technology
- School of Engineering

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Arboriculture & Horticulture

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Electronics, Computer Networking & Communications
- Facility Technology (Air-Conditioning & Refrigeration)
- Facility Technology (Landscaping Services)
- Facility Technology (Mechanical & Electrical Services)
- Facility Technology (Vertical Transportation)
- Floristry
- Mechanical Technology
- Mechatronics & Robotics
- Urban Greenery & Landscape

### **Higher Nitec in:**

- Civil & Structural Engineering Design
  - Electrical Engineering
  - Electronics Engineering
  - Engineering with Business
  - Facility Management
  - Facility Systems Design
  - Landscape Management & Design
  - Mechanical Engineering
  - Mechatronics Engineering
  - Robotics & Smart Systems
- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

This Diploma course prepares you for a professional career in the Landscaping sector. You will gain the skills and knowledge to manage arboriculture and horticulture projects, perform greenery management, apply mechanisation and automation technology, develop landscape operation and maintenance programmes, as well as implement safe work practices at the worksite.

On completion of this Diploma Programme, you can become an Arborist or Horticulturist.

## Career Progression Pathway

# Work-Study Diploma in Architectural BIM & Design

## About the Course

This Diploma course seeks to equip you with technical skills competencies to assist in architectural design and produce architectural drawings, to meet the design and regulatory requirements, using Building Information Modelling (BIM) software.

On completion of this Diploma Programme, you can become an Architectural Technical Assistant or Architectural Assistant.

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Architectural Technology
- Space Design (Architecture)
- Interior & Exhibition Design
- Design (Interior & Exhibition)
- Product Design

### **Higher Nitec in:**

- Architectural Technology
  - Space Design Technology
  - Visual Merchandising
  - Civil & Structural Engineering Design
- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Automation Engineering

## About the Course

This Diploma course prepares you for a professional career in the Precision Engineering sector. You will gain the skills and knowledge in the installation, maintenance and troubleshooting of computer-controlled systems, equipment and robotics in advanced manufacturing facilities.

On completion of this Diploma Programme, you can become an Assistant Engineer or Associate Engineer.

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

- Nitec* in:**
- Aerospace Avionics
  - Aerospace Technology
  - Electrical Technology (Power & Control)
  - Electronics & Internet of Things
  - Electronics, Computer Networking & Communications
  - Mechanical Technology
  - Mechatronics & Robotics
  - Microelectronics

- Higher Nitec* in:**
- Electrical Engineering
  - Electronics Engineering
  - Engineering with Business
  - Marine & Offshore Technology
  - Marine Engineering
  - Mechanical Engineering
  - Mechatronics Engineering
  - Robotics & Smart Systems
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

- Note:**
- Applicants must be free from colour appreciation deficiency.
  - NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Chemical Process Technology

## About the Course

This Diploma course prepares you for a professional career in the Energy & Chemicals sector. You will gain the skills and knowledge to manage and maintain the manufacturing or process operations in the chemical, oil and gas industry.

On completion of this Diploma Programme, you can become a Process Technician.

## Career Progression Pathway

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Chemical Process Technology
- Electrical Technology
- Mechanical Technology

### **Higher Nitec in:**

- Electrical Engineering
- Mechanical Engineering

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

"I was attracted by the WSDip's mode of training. The combination of theory and practice really helps me understand and absorb better. To top it all, I get an income and a Diploma. It's like a 'short-cut' both to work and to a higher qualification."

**Jayson Lim**  
Process Technician  
ExxonMobil Asia Pacific Pte Ltd  
(WSDip Graduate)

# Work-Study Diploma in Electrical Engineering

## About the Course

This Diploma course prepares you for a professional career in the Professional Engineering Services sector. You will gain the skills and knowledge to design, install, maintain, repair, inspect, test, operate and supervise electrical installations and systems in accordance with engineering specifications as well as codes of practice and regulations.

On completion of this Diploma Programme, you can become an Assistant Electrical Engineer.

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

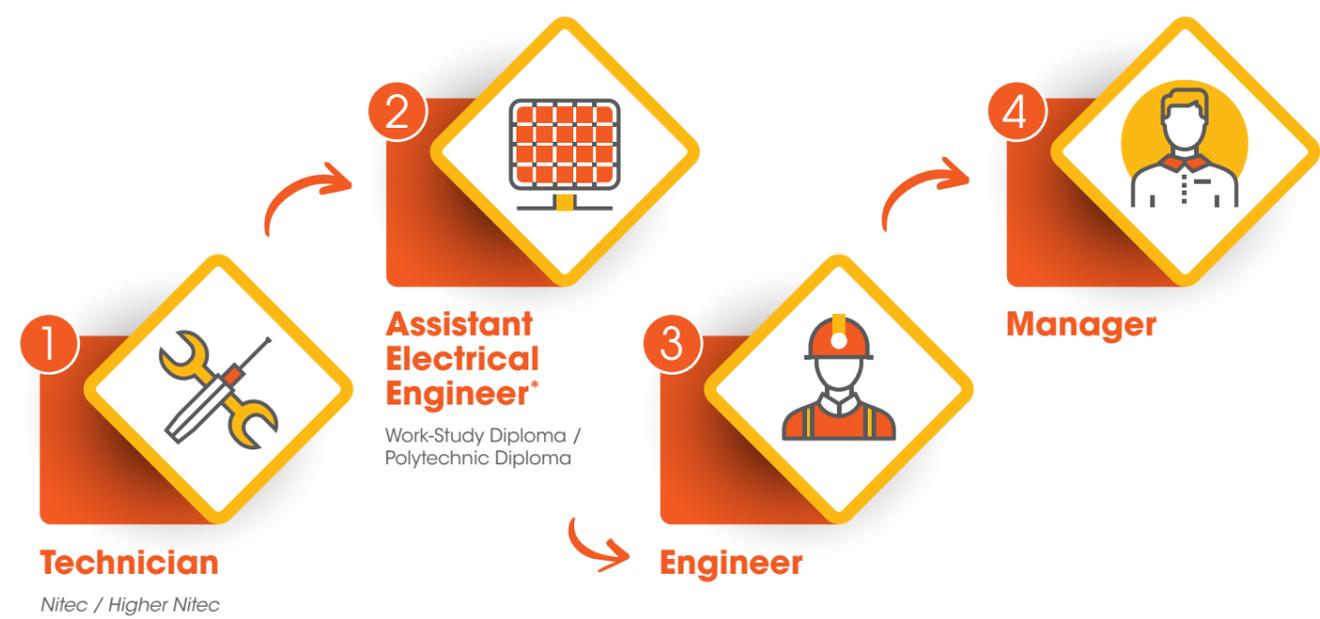

- Nitec* in:**
- Aerospace Avionics
  - Electrical Technology (Lighting & Sound)
  - Electrical Technology (Power & Control)
  - Electronics, Computer Networking & Communications

- Higher Nitec* in:**
- Electrical Engineering
  - Electronic Engineering

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

- Note:**
- Applicants must be free from colour appreciation deficiency.
  - NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

\*The holder of the Work-Study Diploma in Electrical Engineering is eligible to apply for EMA Licensed Electrical Technician certification after fulfilling the requirements prescribed by the authority.

# Work-Study Diploma in Land Transport Engineering

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Aerospace Avionics
- Aerospace Technology
- Automotive Technology
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Electrical Technology (Power & Control)
- Electrical Technology (Lighting & Sound)
- Electronics, Computer Networking & Communications
- Electronics & Internet of Things
- Mechatronics & Robotics
- Mechanical Technology
- Rapid Transit Technology

### **Higher Nitec in:**

- Aerospace Engineering

- Automotive Engineering
- Civil & Structural Engineering Design
- Electrical Engineering
- Electronics Engineering
- Engineering with Business
- Facility Management
- Integrated Mechanical & Electrical Design
- Marine Engineering
- Marine & Offshore Technology
- Mechanical Engineering
- Mechatronics Engineering
- Process Plant System
- Offshore & Marine Engineering Design
- Rapid Transit Engineering
- Robotics & Smart Systems

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

This Diploma course seeks to equip you with the skills, knowledge and professional attributes to work on vehicle/rail and associated sub-systems and components to ensure safe and efficient operation of the equipment and systems.

On completion of this Diploma Programme, you can become an Assistant Engineer / Supervisor.

## Career Progression Pathway

# Work-Study Diploma in Marine & Offshore Engineering

# Work-Study Diploma in Microelectronics

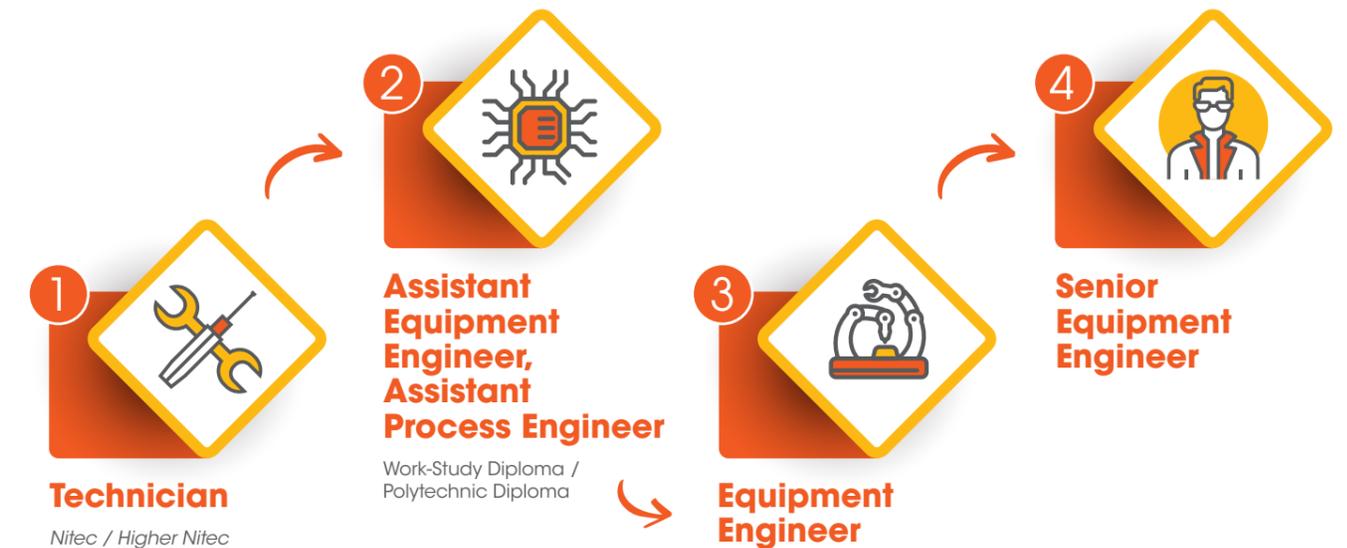

## About the Course

This Diploma course has 2 specialisations to prepare you for a professional career in the Manufacturing sector. For Equipment specialisation, you will gain the skills and knowledge to implement equipment engineering process in a manufacturing environment, analyse equipment maintenance issues and develop maintenance plans for performance enhancement. For Process specialisation, you will gain the skills and knowledge to support production processes in a manufacturing environment, analyse manufacturing issue and develop improvement plan for performance enhancement.

On completion of this Diploma Programme, you can become an Assistant Equipment Engineer or Assistant Process Engineer.

## Career Progression Pathway

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0 from
  - School of Engineering
  - School of Electronics & Info-Comm Technology

Or

- A relevant *Higher Nitec* from
  - School of Engineering
  - School of Electronics & Info-Comm Technology

- Mechatronics
- Microelectronics

### Higher Nitec in:

- Electronics Engineering
- Mechanical Engineering
- Mechatronics Engineering

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### Nitec in:

- Electronics, Computer Networking & Communications
- Mechanical Technology

“The valuable hands-on experience and close supervision I received in the WSDip Programme has given me confidence at work. As a result, I have become more independent in real work situations.”

**Fion Chua**  
Logistic Admin  
SML Logistic Pte Ltd  
(WSDip Graduate)

# Work-Study Diploma in Port Automation Technology

## About the Course

This Diploma course prepares you for a professional career in the Sea Transport sector. You will gain the skills and knowledge to perform and supervise maintenance and repair of various port container handling automated systems and equipment, such as network systems, and automated cranes and vehicles, in accordance with planned schedule, quality standards, Standard Operating Procedures and Workplace Safety & Health guidelines.

On completion of this Diploma Programme, you can become an Assistant Service Engineer.

## Career Progression Pathway

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### *Nitec* in:

- Automotive Technology
- Electrical Technology
- Electronics
- Mechanical Technology
- Mechatronics
- Port Equipment Technology
- Technology – Port Equipment Technology

### *Higher Nitec* in:

- Automotive Engineering
- Electrical Engineering
- Electronics Engineering
- Mechanical Engineering
- Mechatronics Engineering

### Note:

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

“I am grateful for the opportunity to undertake the Work-Study Diploma in Port Automation Technology. The WSDip enables me to acquire a professional qualification while working on the job. The new skills and knowledge that I learn will prepare me for PSA’s future workplace and contribute to its transformation into an automated, intelligent port!”

**Kenny Goh**  
Assistant Service Engineer  
PSA Corporation Limited  
(WSDip Graduate)

A PSA employee with more than 10 years' experience

# Work-Study Diploma in Security Systems Engineering

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0 or
  - A relevant *Higher Nitec*

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

All *Nitec* courses from the School of Engineering and School of Electronics & Info-Comm Technology

All *Higher Nitec* courses from the School of Engineering and School of Electronics & Info-Comm Technology

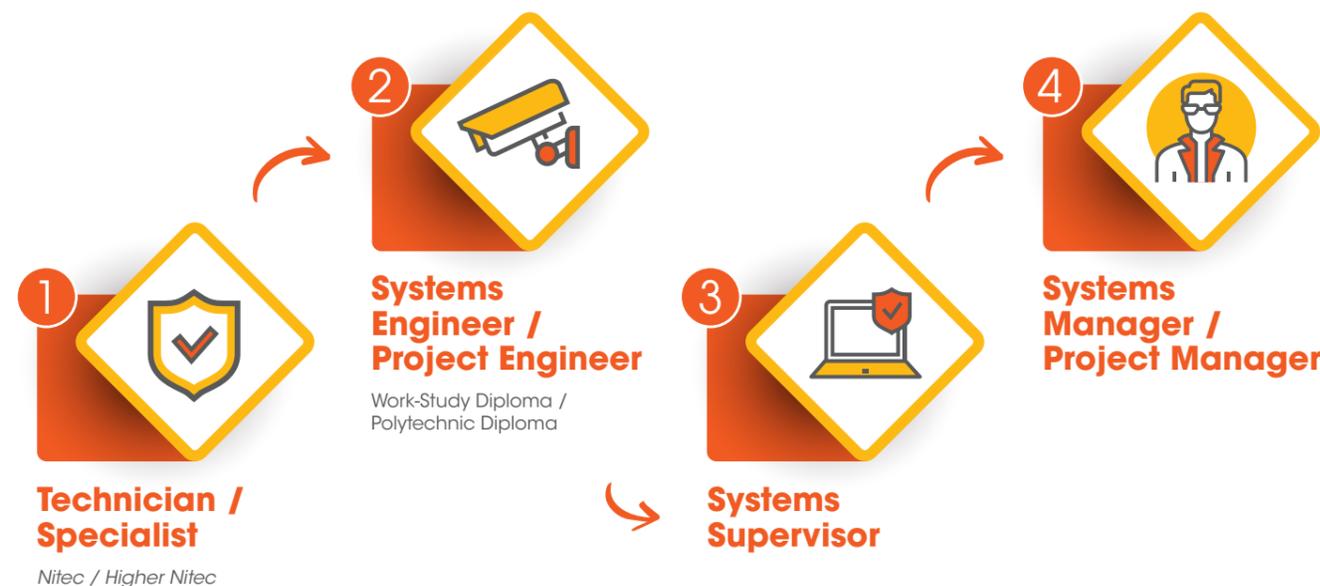

## About the Course

This Diploma course prepares you for a promising career in the Security Technology industry. You will gain the skills and knowledge to design, deploy, manage implementation and maintenance of physical security projects, as well as apply AI and automation into the systems to optimise operational efficiency and reliability.

On completion of this Diploma Programme, you can become a Systems Engineer or Project Engineer.

## Career Progression Pathway

“I chose the WSDip over a full-time course in Poly as I can get the WSDip Diploma in a shorter time, and I get to start work immediately. In fact, I’ve also encouraged my younger brother to consider the WSDip route after he completes National Service.”

**Nurul Fitri Bte Mustafa**  
Security & Compliance Officer  
Equinix Singapore Pte Ltd  
(WSDip Graduate)

# Work-Study Diploma in Vertical Transportation

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Aerospace Avionics
- Aerospace Machining Technology
- Aerospace Technology
- Automotive Technology (Heavy Vehicles)
- Automotive Technology (Light Vehicles)
- Built Environment (Mechanical & Electrical Services)
- Built Environment (Vertical Transportation)
- Electrical Technology (Lighting & Sound)
- Electrical Technology (Power & Control)
- Facility Technology (Air-Conditioning & Refrigeration)
- Facility Technology (Landscaping Services)
- Facility Technology (Mechanical & Electrical Services)
- Facility Technology (Vertical Transportation)
- Lift & Escalator Technology
- Mechanical Technology
- Mechatronics
- Rapid Transit Technology

### **Higher Nitec in:**

- Civil & Structural Engineering Design
- Electrical Engineering
- Engineering with Business
- Facility Management
- Facility Systems Design
- Integrated Mechanical & Electrical Design
- Landscape Management & Design
- Marine Engineering
- Marine & Offshore Technology
- Mechanical Engineering
- Mechatronics Engineering
- Offshore & Marine Engineering Design
- Precision Engineering
- Process Plant Design
- Rapid Transit Engineering

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- Applicants must be free from colour appreciation deficiency.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

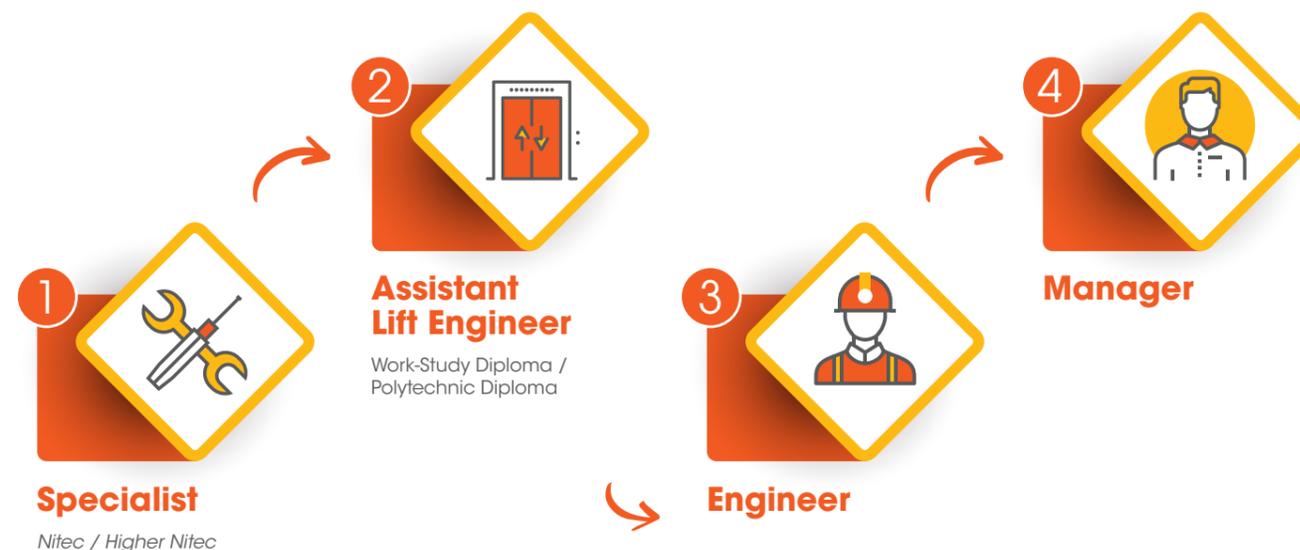

## About the Course

This Diploma course prepares you for a professional career in the Built Environment sector. You will gain the skills and knowledge to manage and supervise new lift installation or upgrading project, as well as perform high-level lift inspection, maintenance, servicing and fault diagnostics, in compliance with all relevant standards, regulations and codes of practice.

On completion of this Diploma Programme, you can become an Assistant Lift Engineer.

## Career Progression Pathway

**“ I chose this Diploma because the career options for this industry are expanding, and the skills I learn at ITE are relevant to the industry.”**

### **Ooi Guo Qiang**

Senior Technical Supervisor  
Chevalier Singapore Holdings Pte Ltd  
(WSDip Graduate)

NEW

# Work-Study Diploma in Customer Experience Management

## About the Course

The Diploma equips you with customer experience management skills set, specialising in the following skills:

- Passenger experience management in the Aviation track
- Customer experience management in Lifestyle & Consumer track

On completion of this Diploma Programme, you can be employed as a Passenger Supervisor or a Customer Services Supervisor.

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A Nitec with a Grade Point Average (GPA) score of at least 2.0; or
- A Higher Nitec

Or

- In-service workers:
  - Equivalent qualifications such as WPLN Level 5 and above
  - Relevant work experience
  - Strong employer endorsement

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Airport Operations

## About the Course

This Diploma course prepares you for a professional career in the Air Transport sector. You will gain the skills and knowledge to provide airport ground handling services, which include managing operations, implementing Standard Operating Procedures, operating different equipment / vehicles, and deploying technological tools to address customers and stakeholders' needs.

On completion of this Diploma Programme, you can take up supervisory jobs in ground handling services.

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- All *Nitec* courses from the School of Business & Services

### **Higher Nitec in:**

- All *Higher Nitec* courses from the School of Business & Services
- Electronics Engineering
- Marine Engineering
- Marine & Offshore Technology
- Offshore and Marine Engineering Design

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

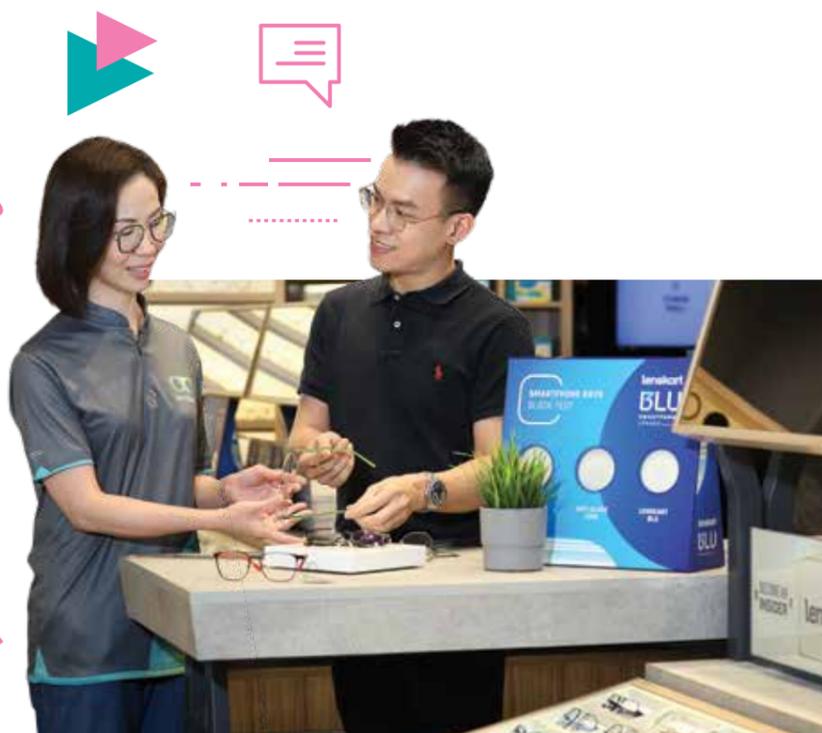

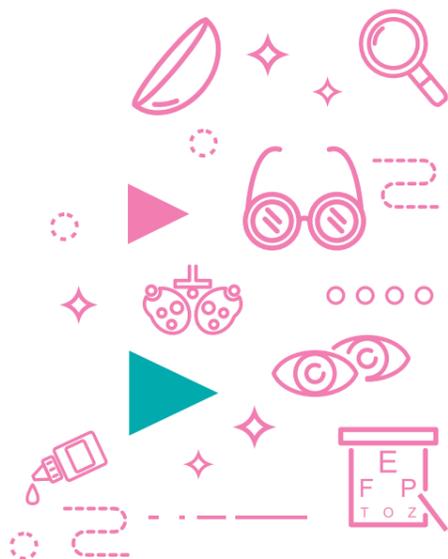

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Opticianry

## About the Course

This Diploma prepares you for a professional career in the Optical sector. You will also learn the skills, knowledge and professional attributes to manage refraction cases, perform advanced refraction techniques, provide good ophthalmic solutions, create myopia management plans, manage challenging dispensing cases and operate various diagnostic ophthalmic instruments. In preparation for the ageing population, you will also learn how to extend support in the area of low vision, offer basic advice on common eye diseases in Singapore and the related referral routes.

On completion of this diploma programme, you can become an Optician (Dip).

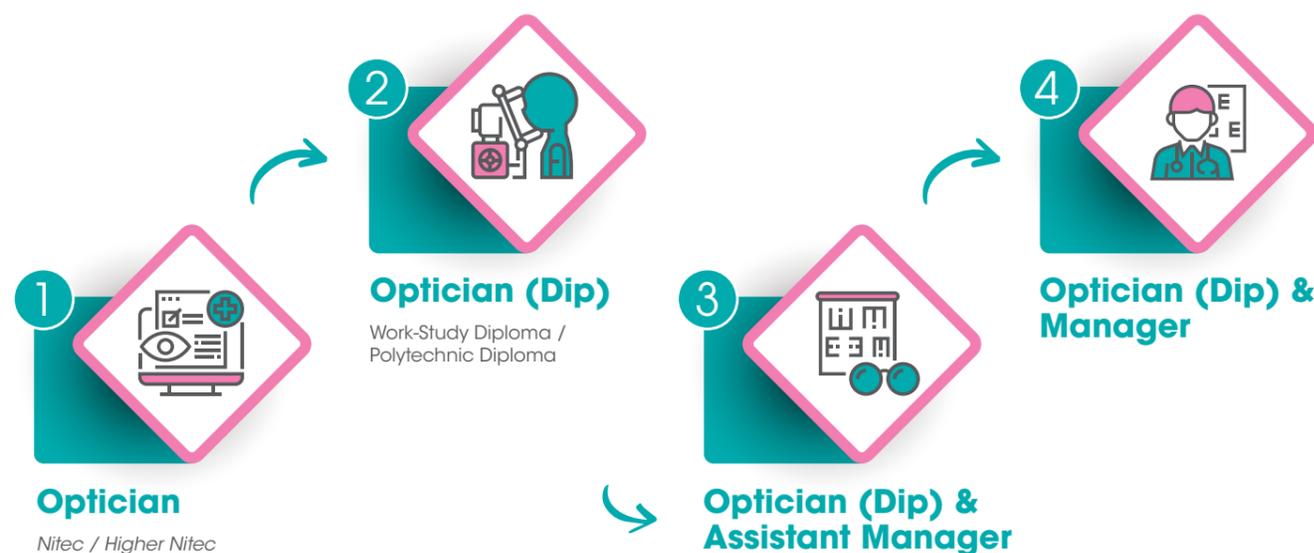

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A *Nitec* in Opticianry with a minimum GPA of 2.0
2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Patient Management & Services

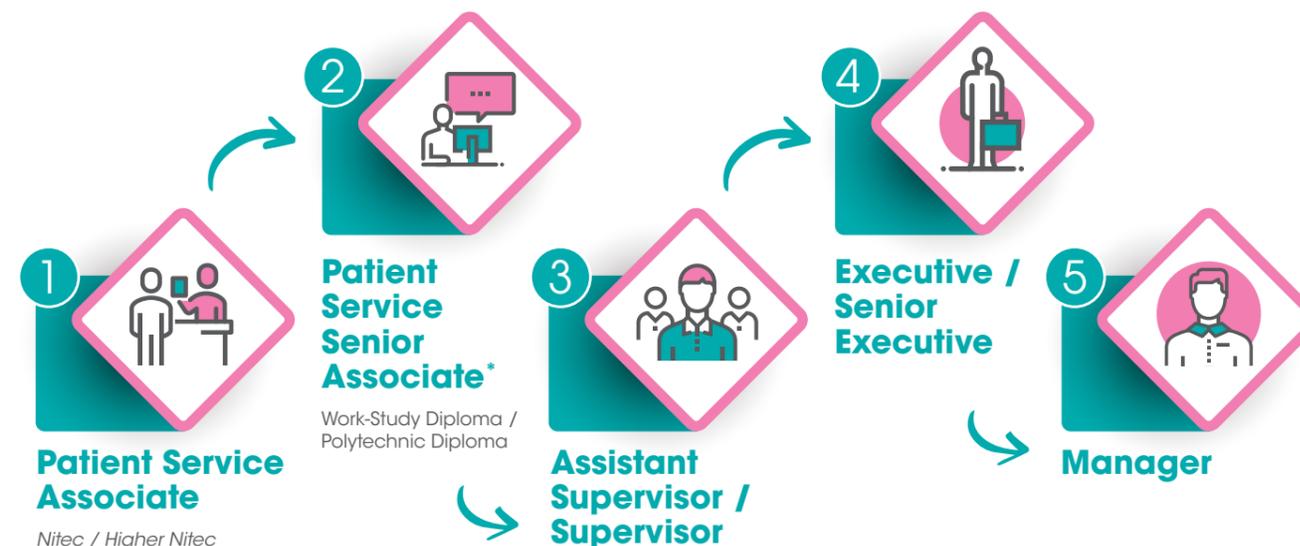

## About the Course

This Diploma course prepares you for a professional career in the Healthcare sector. You will gain the skills and knowledge to provide frontline healthcare patient and ancillary support services for quality inpatient and outpatient customer service, at various service touch points in the hospitals or polyclinics. On completion of this Diploma Programme, you can become a Patient Service Senior Associate\*.

## Career Progression Pathway

\*Appointment to higher-level jobs is based on qualifications, work experience and performance.

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

- Nitec in:**
- Business Services
  - Dental Assisting
  - Finance Services
  - Fitness Training
  - Travel & Tourism Services

### Higher Nitec in:

- Accounting
- Leisure & Travel Operations
- Passenger Services
- Service Management
- Sport Management

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### Note:

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

“The WSDip has given me the opportunity to earn an income and get a Diploma at the same time. Besides the hands-on learning, I am also given the chance to build my career at Tan Tock Seng Hospital.”

### Nurulhuda Bte Abdul Rahman

Patient Service Associate  
Tan Tock Seng Hospital  
(WSDip Graduate)

# Work-Study Diploma in Rehabilitation Care

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Community Care & Social Services
- Nursing

### **Higher Nitec in:**

- Paramedic & Emergency Care

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- Applicants must be employed as Therapy Assistants and sponsored by their employers.
- Applicants with relevant work experience and support from their employers that are participants of the WSDip programme can also apply. Non-ITE graduates with equivalent qualifications, such as Workplace Literacy and Numeracy (WPLN) qualifications and relevant Workforce Skills Qualifications (WSQs), such as WSQ Higher Certificate in Healthcare Support (Therapy Support) may also be considered.
- ITE graduates already in employment need not have GPA requirement if they have at least 2 years of relevant work experience and the support of their employers.
- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

This Diploma course prepares you for a professional career in the Healthcare industry. You will gain the skills and knowledge to use various therapist-prescribed assessment tools and carry out therapist-prescribed treatment plans for clients affected by physical injuries, illnesses, developmental disabilities or psychosocial dysfunctions. You will also learn strategies to promote health and wellness related to active ageing.

On completion of this Diploma Programme, you can become a Senior Therapy Assistant.

## Career Progression Pathway

\*Appointment to higher-level jobs is based on qualifications, work experience and performance.  
Source: Job grades based on Ministry of Health (MOH) salary guidelines.

“Going through the WSDip programme, I can easily apply the learnt theory simultaneously into my work to deliver better patient care.”

**Joselin Thiam**  
Senior Therapy Assistant  
Tan Tock Seng Hospital  
(WSDip Graduate)

Work-Study Diploma in

# Cloud Management & Operations

## Career Progression Pathway

# Work-Study Diploma in Cyber Security & Forensics

## About the Course

You will gain the skills and knowledge to manage server and network security infrastructure, as well as perform security assessments and testing, threat detection, incident response, and digital forensics operations in accordance with the compliance policies and procedures.

On completion of this Diploma Programme, you can become an Associate Cyber Security Engineer.

## Who Can Apply?

1. Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:

- A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
- A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Infocomm Technology

### **Higher Nitec in:**

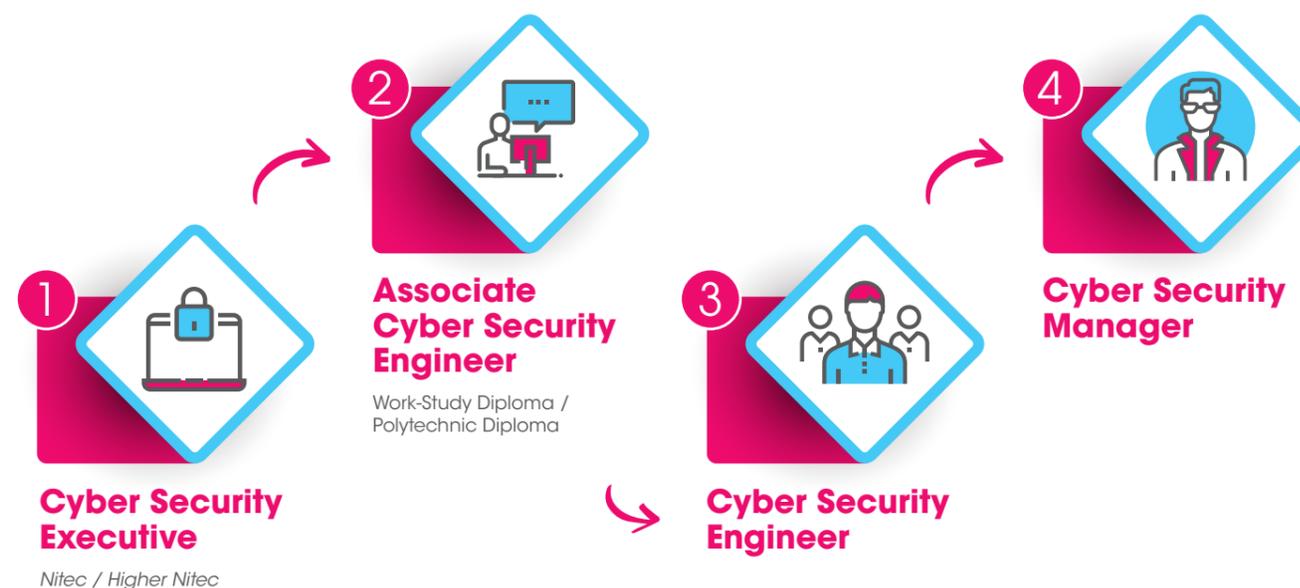

- Business Information Systems
- Cyber & Network Security
- IT Systems & Networks

2. If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in Data Centre Infrastructure & Operation

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Built Environment
- Electrical Technology
- Electronics, Computer Networking & Communications
- Facility Technology
- Infocomm Technology
- Mechatronics

### **Higher Nitec in:**

- Business Information Systems
- Cyber & Network Security
- Electrical Engineering
- Electronics Engineering
- Facility Management
- IT Systems & Networks
- Mechatronics Engineering

- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

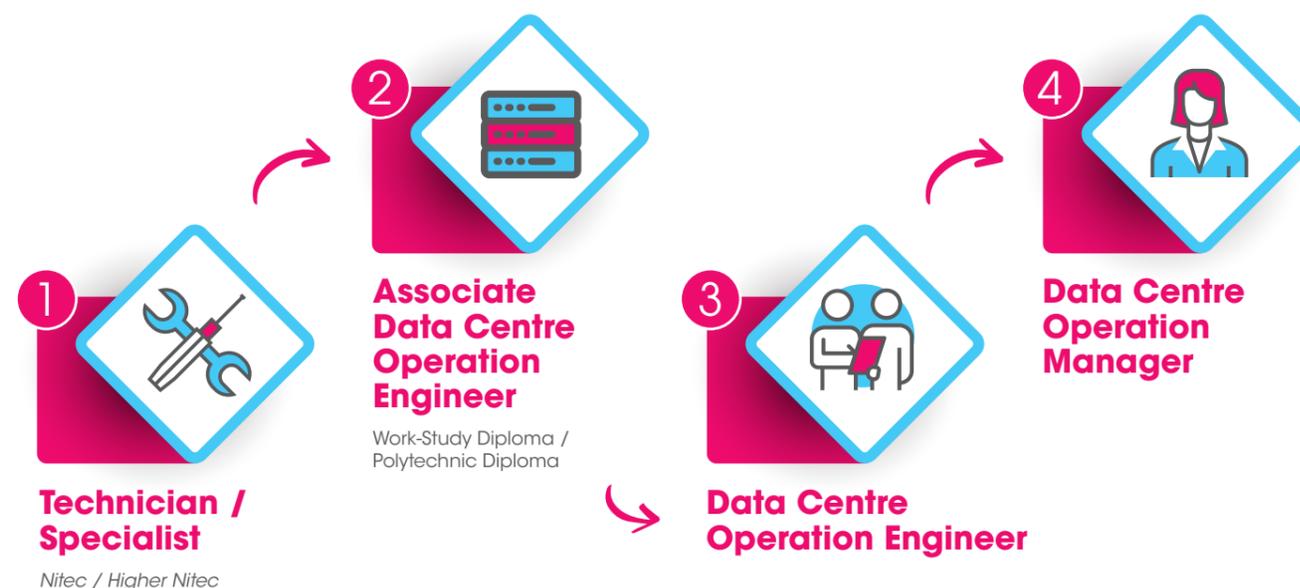

## About the Course

This Diploma course prepares you for a professional career in the Infocomm Technology sector. You will gain the skills and knowledge to manage data centre infrastructure on IT network systems and building facilities, monitor data centre operations and services, maintain internal documentation and perform independent first-level troubleshooting of recurrent issues.

On completion of this Diploma Programme, you can become an Associate Data Centre Operation Engineer.

## Career Progression Pathway

# Work-Study Diploma in IoT & Data Engineering

## About the Course

You will learn the skills and knowledge to design, integrate and manage IoT-based data analysis and engineering to optimise operational efficiency and reliability in Advanced Manufacturing, Smart Nation, Logistics, Smart Building and business applications relating to Digital Supply Chain. On completion of this Diploma Programme, you can become an Associate Systems Engineer.

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

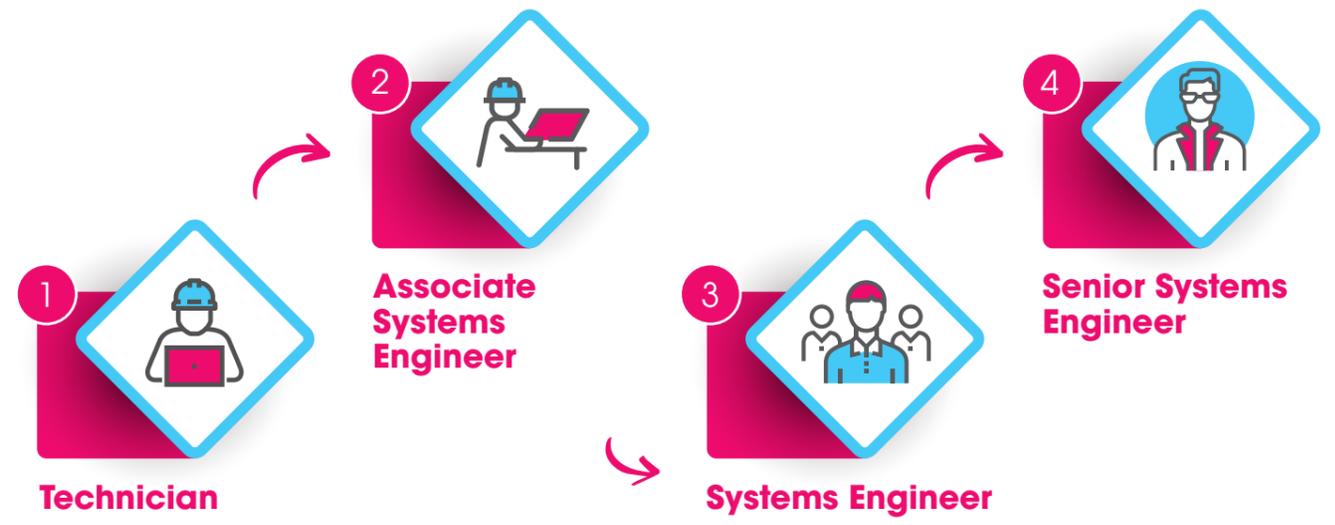

- Nitec in:**
- Electronics & Internet of Things
  - Electronics, Computer Networking & Communications
  - Infocomm Technology
  - Mechatronics & Robotics
  - Microelectronics
  - Security Technology
  - Web Applications

- Higher Nitec in:**
- Business Information Systems
  - Cyber & Network Security
  - Data Engineering
  - Electronics Engineering
  - IT Applications Development
  - IT Systems & Networks
  - Mechatronics Engineering
  - Robotics & Smart Systems
  - Security System Integration
- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

**Note:**

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## Career Progression Pathway

# Work-Study Diploma in IT System Integration

## Who Can Apply?

- Open to both fresh and in-employment ITE graduates who are Singapore Citizens, Permanent Residents or Long Term Visit Pass Plus (LTVP+) Holders, and have:
  - A relevant *Nitec* with a Grade Point Average (GPA) score of at least 2.0; or
  - A relevant *Higher Nitec*

The relevant *Nitec* / *Higher Nitec* courses for this Diploma are:

### **Nitec in:**

- Electronics, Computer Networking & Communications
- Infocomm Technology
- Security Technology
- Web Applications

### **Higher Nitec in:**

- Business Information Systems
  - Cyber & Network Security
  - Data Engineering
  - Electronics Engineering
  - IT Applications Development
  - IT Systems & Networks
  - Security Systems Integration
- If you are not an ITE graduate, we will consider your application if you have an equivalent Workplace Literacy and Numeracy (WPLN) Level 5 qualification, relevant work experience and strong employer endorsement.

### **Note:**

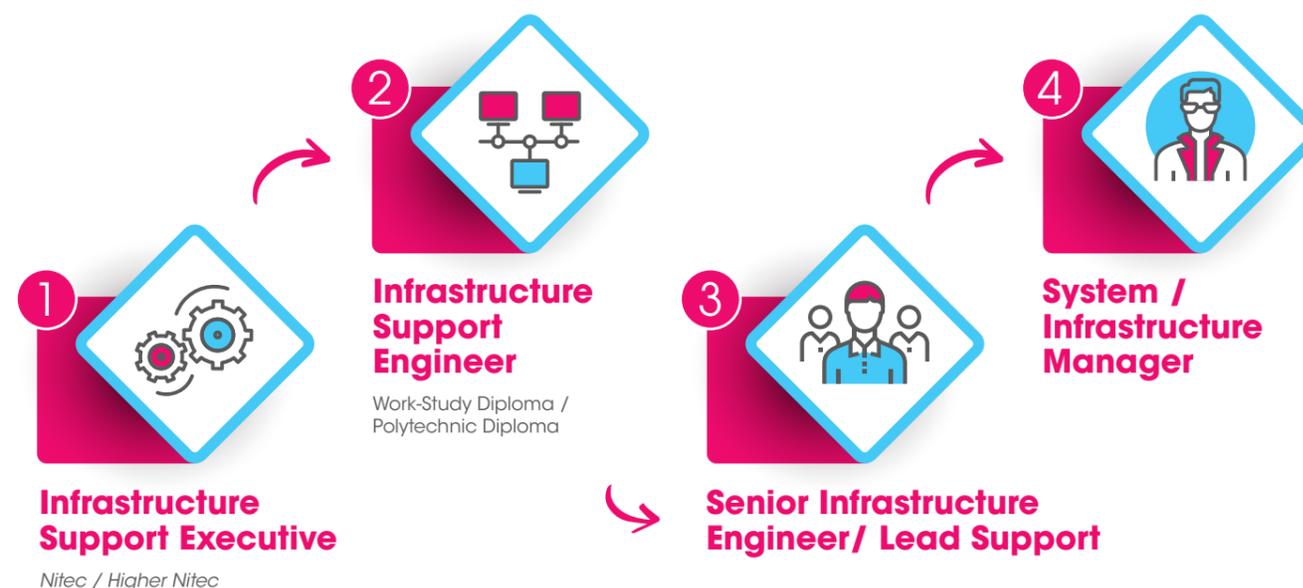

- NS-liable males who wish to pursue Work-Study Diploma courses have to check their eligibility for NS deferment at the Central Manpower Base (CMPB). Only those who are eligible for NS deferment can enrol in the course.

## About the Course

This Diploma course prepares you for a professional career in the Infocomm Media sector. You will gain the skills and knowledge to deploy and test infrastructure hardware and software, as well as apply analytics and automation to optimise operational stability, efficiency and reliability of the infrastructure system. On completion of this Diploma Programme, you can become an Infrastructure Support Engineer.

## Career Progression Pathway

Work-Study Diploma in

# Media Communication & Digital Marketing

## About the Course

This Diploma course prepares you for a professional career in the Media and Service sector. You will gain the skills and knowledge to develop and design digital content for service marketing and training, as well as to influence emerging digital practices.

On completion of this Diploma Programme, you can become a Digital Content Developer, Designer or Executive.

Application Dates  
**1 Nov - 9 Dec 2022**

SCAN QR CODE TO GO TO APPLICATION PAGE

# Application Timeline

Apply for up to three choices.

RESUME

Applicants to prepare and submit resumes directly to companies of their choice.

Shortlisted applicants to attend interviews conducted by partner companies

Wait for interview outcome and decide whether to accept the offer

Successful applicants will be notified by companies and ITE. Companies may request successful applicants to start employment before course commencement.

Start your Work-Study Diploma in April 2023

# Hear from Employers!

The ITE WSDip offers **greater exposure** to different facets of working life in our dynamic, round-the-clock operation. Trainees are able to **gain a fuller perspective** and thus make a better informed decision about their future career. //

**Loh Chen Ken**  
Etch Maintenance Section Manager  
ST Microelectronics

The WSDip saved us time in pre-screening and searching for the right talents. Through this programme, Inclus is able to **recruit and retain local talents who best fit the organisation.** //

**Anders Tan**  
Co-Founder  
Inclus Pte Ltd

The WSDip is a fantastic programme that provides students the opportunity to apply their classroom knowledge to actual hands-on experience. **What's more, they get paid in this opportunity.** My experience so far has been relatively good, and I had a pleasant time teaching the trainees and answering their questions and doubts. I am glad to be part of their journey and possibly making an impact on their lives. //
